

Help Us Help Others!

Groups of volunteers from Bucknell University have traveled to Nicaragua over the past nine years for educational service projects. A partnership has been formed with a community development agency and we are asking friends, family, and supporters to help us provide medicines and supplies to the health clinic that was built in Nueva Vida, Nicaragua with funds raised by the Bucknell Brigade.

Please consider donating any of the items from the

Bucknell Brigade WISH LIST

for use in the health clinic in Nueva Vida, Nicaragua:
