May 2009

To the Reader:

The following report presents the results of the extensive survey conducted by the Career Development Center to obtain information on the post-graduation activity of the Class of 2008. Statistics provided are based on information received from a questionnaire conducted at the annual cap & gown distribution each May. Those students who responded "still seeking" on the cap & gown survey received a mailing in September, and those who responded "still seeking" or didn't respond to the September mailing received a follow-up mailing in November and were part of a telephone survey conducted in February/March. Through this extensive process, I am delighted to report that we received responses from 97% of the Class of 2008.

With such a strong response rate, the goal of this report is to highlight in detail the post-graduate activity of the Class of 2008. To that end, it is organized in the following manner:

- ◆ The **Summary Information** (page 1) provides a quick overview of all activity reported.
- ◆ The **Employment Information** (pages 2-11) lists alphabetically by college the organizations where 2008 graduates accepted offers of employment. In addition, this section provides aggregate data on the locations and industries of these organizations, salary information, additional offers received and how positions were identified.
- ◆ The **Graduate and Professional School Information** (pages 21-24) lists alphabetically by college the graduate and professional schools where 2008 graduates accepted offers of admission. In addition, this section provides aggregate data on the degrees sought and the fields of study pursued.
- ◆ The **Breakdown by Academic Major Information** (pages 25-62) lists alphabetically by major the organizations where 2008 graduates accepted offers of employment, as well as mean salary information. A list of graduate schools where 2008 graduates accepted offers of admission, as well as scholarships/fellowships received follows. *(Please note: this data does include students who have declared two majors; however, this will cause the department figures to differ slightly from the overall report figures.)*

Finally, this report can also be found on the Career Development Center's web site, which is <http://www.bucknell.edu/CareerDevelopment/>. I welcome your questions and comments about this survey. Permission for use of this information should be directed to the Career Development Center.

Sincerely,

Pamela G. Keiser
