

A Working Partnership

PROJECTS IN PROGRESS

Proposal from the Biology Department

- Option 1: Send 2 or 3 Bucknell students to spend 8-10 weeks engaged in research in France with a reciprocal exchange of French students working in our laboratories at Bucknell University. The department will provide stipends and housing for the UFR students. UFR could offer the equivalent to Bucknell students.
- Option 2: Bucknell students would work on research projects with a professor from the Biology department during the summer. Financing may be possible as a stipend for the Bucknell student while at UFR.

Engineering

- Fall 2007 visit of Bucknell Engineering professor to UFR to better understand the structure and possible student/faculty collaboration between Bucknell University and UFR.

Environmental Studies

- Launching of a course on the Loire by "Patrimoine du corridor fluvial ligérien", by Professor Jean-Pierre Berton of IMACOF.
- Partnership on the Loire-Susquehanna Rivers Project at UFR and Bucknell University with both students and faculty.

Management

- Establishing an internship program for management students in Tours.
