| Feb 06 | David Olsen                                   | Distinguished Research Scientist, Merck Research Laboratories, Merck & Co.   
Hepatitis C Drug Discovery: A multidisciplinary effort in identifying a robust curative regime |
| Feb 13 | Alexander Kendall                             | Senior Scientist, P2 Science, Woodbridge CT                          
The Chemistry of Flavors and Fragrances: a foray to industrial chemistry |
| Feb 20 | Amie Boal                                     | Assistant Professor of Chemistry, Biochemistry and Molecular Biology, Department of Biochemistry and Molecular Biology, Pennsylvania State University   
Watching metalloenzymes at work |
| Mar 20 | Melissa Galloway                              | Assistant Professor of Chemistry, Lafayette College                  
Topic TBA |
| Mar 27 | Andrew Patterson                              | Tombros Early Career Professor, Associate Professor of Molecular Toxicology, Biochemistry & Molecular Biology, Pennsylvania State University   
Using Metabolomics to Decipher Host-Microbiota Communication |
| Apr 10 | Graduate students in chemistry                 | ~ Nathan Fretz ~                                                        
Topic TBA and ~ Kelly Ambruso ~ Total Organic Carbon and Sediment Formation Analysis of Abandoned Mine Drainage |

All dates are Wednesdays
Presentations at noon
Rooke Chemistry 102

All are welcome!

Pizza and sodas offered!
