SENIORS
Senior Class Poem

Dawn opened wide her eyes
From out the brightness of the eastern skies,
And lo, from far and near on every hand
A crowd of youths and maids, a merry band
Trying to do with all their might
Everything possible, just about right.
Thus—our Freshman year.

Noon, confident in her powers, appears,
Self-satisfied and bold, she has no fears.
Tho' we in number were up to par,
So in virtuous deeds we excelled all by far.
But one great lesson we learned just then,
That of serving our fellow men.
And so, our Sophomore year.

In afternoon, the youths and maidens, older grown.
Are proudly saddened, for some have flown
To the country's call to take their place,
While we remain to finish the race.
We, with faces turned from the West
Have sad memories of hours, once blest.
Like this, our Junior year.

Evening has not yet passed, though gray
Until the stars appear to light the way
To greater things that God hath made.
We know the sadness of farewell shall fade;
A new dawn with its morning light
Shall break with new hopes and promises bright.
So—our Senior year.
SEPTEMBER, 1914, brought a new freshman class to the Hill of Knowledge, "the like of which had never been seen." Light-hearted, with elastic step, boys with green buttons and girls with green bows, we made our appearance. It needed but one glance at our determined faces to show the faculty the very evident, brilliant possibilities in the class of 1918 and we have never disappointed them.

We do not pretend to write a 1918 Class History; that would require volumes, for 1918 is a numeral born never to die. Remember, when we wore green buttons we gave 1917 a most humiliating defeat in the 1917-1918 class scrap. Remember, when we lined up for that noble fight in our sophomore year, though less in numbers, we were perfect in team-work, and won the victory again over 1919. Remember, 3-0 was the score we gained on the grid-iron for the interclass game of 1918-1919.

Then we reached the stage of life known as the Junior year. During the two preceding years our influence for good was so dominant on the Hill, that the town became saturated with our spirit. What was the result? All sorts of improvements throughout town marked our influence. A new bank appeared to accommodate our finances. Market Street was paved. Cluster lights were erected every few feet. Each beautiful globe throwing forth its light and cheers all pedestrians at night when we cannot let glow our cheery countenances as we do all day; for, at night, we members of '18 study diligently all the "ologies" on the Hill. We have turned old Market Street into the Broadway of Lewisburg. To exemplify our ever ready wit, they erected the beautiful fountain in the middle of the square at Broadway and Third Street. Just as this fountain throws forth a clear stream of pure, cold water, so does the class of '18 give forth its ever-flowing fountain of knowledge.

And now we are on our "home run." But a short space of time is left this class of 1918 before we must leave the halls we love most dearly. We are fewer in number, but in our case that is an honor. Many of our men of '18 have answered the call to "The Colors." Many sacrificed their diplomas to "do their bit" in the present day crises just as they have "done their bit" in their happy sojourn here. They would have done us honor on Commencement platform, but they are doing us honor always "somewhere." We are proud of you, our seniors of 1918 and we whom you left behind, are with you heart and soul forever, and we consider you of us wherever you are as our Commencement approaches.

ON THE HIKE
The Juniors
Junior Class Poem

Have any e'er seen since they've been in Bucknell
A class with such fame about it
As the class 1919 you all know so well?
Well, maybe they have, but—I doubt it.

Have any e'er seen such chivalrous men
Or have any e'er heard tell about it—
How they gave a "Dink" social for the girls in the Sem?
Well, maybe they have, but—I doubt it.

Have any e'er heard of such girls full of "Pep"?
Hush! now, and please do not shout it,
How they crawled out "Sem" windows and yelled loud their "rep"?
Well, maybe they have, but—I doubt it.

Has any class up there on the hill
Since "Uncle Sam" wrote us about it
Given more sturdy men to beat Kaiser Bill?
Well, maybe they have, but—I doubt it.

Or has any class down there in the "Sem"
Since Red Cross told us about it,
Knit more sweaters and scarfs for these men,
Well, maybe they have, but—I doubt it.

Has any class that e'er came to B. U.
Without any joking about it.
Ever been so loyal, so faithful and true?
Well, maybe they have, but—I doubt it.
Junior Class History

You are all familiar with the old but true saying, "There is strength in Unity." This has been the keynote to the success of the class of 1919. No matter what worthy idea was brought up, and there were a few, for '19 is especially characterized by its originality, we put 'er through in fine shape because we stuck together.

This "stick" realized itself in us as green freshmen only after defeats in the class scrap and Freshman-Sophomore football game. Our originality then spoke and we organized a Freshman Athletic Association, a precedent handed down to the following classes. We had gotten together and the "Dink" social, the celebration of the removal of our freshmen caps, earned by victories in basketball and baseball, evidenced it. Perhaps a great factor in the promotion of this "Unity" was the unique assistance of our girls in their presence and cheering at such gridiron and Gym events. No doubt you may say that this spirit remained in our midst when we were transformed from Freshmen to Sophomores because we lost the class scrap. Not so, but I'll tell you the reason for this, the Freshmen majority did it; to prove it, can you find another victory of the freshmen over the '19 Sophs? "No, not one."

Not only is the characteristic present in our athletics but in every endeavor. When our originality said that we would put away the barbarous custom of painting the town, we responded to a man, and thus handed down a second precedent.

Again our originality spoke in our present Junior year and this very edition, a departure from the ordinary catalogued style, is a product thereof.

Nor can it be said that we should be envied only as a class for the very presence of envy is proof that '19 has been, is, and shall be a long felt class of this institution of knowledge for, in addition to class spirit, '19 has a school spirit. A glance at our majority representation at the various varsity teams is sufficient data to prove this. Also our conduct at various social functions, as Banquets, and the Cotillion, renders a credit to the college.

We can rightfully be proud of our class spirit and more so of our school spirit, but our national spirit at this critical period has especially found roots in old '19. May I ask you to merely look at the service department? Have we not justly dedicated this book?

May these thoughts ever remain, in the memories of the members of '19 and may these achievements be only forerunners to the even greater things for the remaining year and our lives in the "outside world."

GEORGE A. STARKWEATHER
ELIZABETH SPYKER
ELEANOR IVATT

Secretary
Treasurer
SAMUEL ABRAMS
MILTON
Milton High School; Graduate School of Music, 1917; Sophomore Cotillion Committee; Junior Prom. Committee; Secretary Chemical Engineering Society; Chemical Engineering Course. "Red", "Abie", "Sam", "Slippery".

"Hang sorrow, care will kill a cat
And therefore let's be merry"

Behold the musician—not only on the piano, but also on the horn (tooting his own). If "Red" has a class at 8:15 he is sure to rise at 8:16. Always jolly, a heavy fuser, especially out of town, a good student, and a good companion, "Abie" is quite a popular boy. His piano playing invites him to many occasions, and he always makes the best of his opportunities. Although "red-headed" he is quite a "stunner" among the fair sex, and will most likely be a benedict before his hair turns gray.

GABRIEL LEROY ADAMS
HERNDON
Bloomsburg Normal School; Phi Kappa Psi; Class Treasurer, 2; Chairman Junior Smoker Committee; L'Agenda Board; General Science Course. "Gabe", "Angel".

"The world's all right; serene I sit,
And cease to puzzle over it"

In Gabriel, one of Herndon's angels, we find exceptional abilities. His ability to win friends has already been demonstrated to us by his frequent visits to the Seminary. "Gabe", they say, has chosen the profession of a "tooth doctor." But fear not; success will follow him in his profession, as the first essential of a dentist is gracefulness which "Angel" possesses to the fullest extent. According to our last interview with the "Major" he expects to begin practice upon the elite of Herndon, the metropolis of the state (752 inhabitants). He claims that it affords him a large "field" for practice.
MARGARET ELIZABETH ALLEN  
WATSONTOWN
Allenwood High School; Kappa Delta; Mu Phi Epsilon; Latin Philosophical Course. "Peg."

"Bloomie! Do hurry!"

"Peg" is the quiet, studious type of girl. She was at the Woman's College this year but spends her week ends at home, which may be due to the fact that Bob also comes home from State frequently. "Peg," by reason of her name, is always first on the roll and she is also among the first in scholarship.

HARRY HERMAN ANGEL  
WILLIAMSPORT
Williamsport High School; Chemical Engineering Society; Chemical Engineering Course. "Happy," "Wings," "Epidemic."

"So wise, so young, they say do never live long"

Not every class can boast of an "Angel on the Campus," raking leaves; he still indulges in this pastime of his freshman year. As a student, Harry stands among the best and is usually found working, or on his way to Williamsport. Considering all research work to present date, Angel, as good as he is, seems to find his greatest difficulty when accidentally thrown into the company of ladies, and may be classed as one of our "woman haters." As an engineer Harry will make his mark in the world for he is studious, conscientious and a hard worker.
DEWITT KIEFFER BOTTS
MILTON
Milton High School; Delta Theta Upsilon; Freshman Declamation Contest; Junior Exhibition Contest; Glee Club; Glee Club Quartette; Orchestra; Latin Philosophical Course.

"Quiet, steady, strong of mind, 
Fit for a job of any kind"

"DeWitt," the big boy from that fair city four miles up the Susquehanna, is the chap with the sunny smile and hearty greeting. As a tickler of the ivories he is up among the best of them, being a musician of no mean ability. For some reason "DeWitt" has so far evaded the charms of the fair Semites, but we attribute this fact to his loyalty to the girl up home. Quiet and unassuming, "DeWitt" embodies all those qualities which go to make up a good student and a fine fellow, and which point to a successful and happy career.

MARY EVELYN BRIGHT
PHILADELPHIA
Dickinson Seminary; Temple University; Latin Philosophical Course. "Sunny."

"Every one who knows me, spoils me"

Better late than never! Mary was rather late in joining our class, but it was not too late. It was Mary's ambition to go abroad and study music. Because her plans were thwarted by war conditions, she tried Temple for two years and then came to Bucknell just in time to enter our Junior class. In addition to her regular studies and music, Mary is taking a course in fussing. And because she is Bright we predict success for her in all her pursuits.
MARGARET JANE BUCK  
WELDON  
Abington High School; Pi Beta Phi; Girls' Treasurer, 2; Circulation Manager of Bucknell Journal, 2; Operatic Society, 2; Vice President Student Government Association; Latin Philosophical Course. "Peggy," "Buckie."  
"When all else fails, love saves!"

"What's one man's loss is another man's gain." So although Bucknell is to lose "Buckie" in a year we feel quite confident that Chubbie will gain her. We congratulate him that he has found such an all-around good girl as "Bucky" to accept his pin. Conscientiousness is "Peg's" most striking characteristic and her eyes are her most attractive feature. We mustn't forget that she is Miss Buck at times, for you know she is Vice President of Student Government.

ROBERTO GONZALEZ CARULLA  
SANTIAGO DE CUBA  
Institute of Oriente, West Chester State Normal School; Phi Kappa Psi; Junior Prom. Committee; Mechanical Engineering Course. "Bob," "Wop."  
"Brings joy to tired folks!"

A Spaniard did you say? Indeed, yes; "Bob" is straight from Cuba and inherits all the traits of his forefathers, including a warm heart. He is one of those daily "fussers" who wears a hand knit sweater as an emblem of her affection. "Bob" has a jolly disposition and is a fine student. We feel sure that he will reach the diplomatic circle he is aiming for, and our wish for him is, "May Joy be with him in all his undertakings!"
GOLDA CLARK
JERSEY SHORE

Jersey Shore High School; Kappa Delta; C. E. A.; Student Executive Committee; Y. W. C. A. Cabinet; General Science Course. "Goldy."

"Never trouble trouble till trouble troubles you."

Oh for the good old days of last year when "Goldy" and Harvey Dale could be seen at all hours of the day viewing the sights of Lewishurg and vicinity. But alas H. Dale is now in the service and only daily letters remind "Goldy" of last year. "Goldy" lives up to her bright name and sparkles through life, taking things as they come and making friends easily. She believes in letting the future take care of itself, has never made the acquaintance of the hobgoblin "Worry" and in short is a very happy sort of a person whom we are glad to have with us.

FLORENCE ADELAIDE CLEARY
DUNMORE

Dunmore High School; Kappa Delta; L'Agenda Board; Bucknell Journal Staff; Latin Philosophical Course.

"She's Irish and game and gritty and cool, And a long, long way from being a fool."

Dimples, smiles, hard work and a good time seem to be Florence's chief characteristics. Although one might think her very quiet, she is always ready to join in and help make things lively even though it be after quiet hour and even though she has always lived with a "Student Exec." And hard work? Well, she is always in for it when it comes to writing thesis or to "doing Deutsch," the latter of which she is so fond. Journalism seems to be Florence's favorite study and we predict future success for her in this line of work.
RAYMOND JOHN CORNISH
CARBONDALE
"A laugh is worth a hundred groans."
"Ray" says that he hasn't done much since he came to B. U., but we happen to know better than that, and we can say that he has done a good deal. Not only has he been busy with his school work, but still he always has time to bring in his dry humor. Keep it up, "Ray," for humor will help out in your ministerial work and when you become a big "parson" we will come to hear you in your chosen profession.

ERNEST JUDSON CRUSE
PICTURE ROCKS
Picture Rocks High School; Keystone Academy; Delta Sigma; Vice President Class, 1; Assistant Manager Basketball, 3; Jurisprudence Course. "Squire."
"This fellow peeks up wit, as pigeons pegs" 
Ernest Chattering
Reliable Reputable
Neighborly Uncomplaining
Easy going Sleepy
Smiling Estimable
Talkative
EMERSON COLLINS CUPP
MILTON

Milton High School; Delta Theta Upsilon; Manager Class Basketball, 2; Assistant Manager Varsity Football, 3; Junior Prom. Committee; Chemical Engineering Course. "Pretz."

"The course of true love never runs smooth"

You may ask, "Did anything good ever come out of Milton?" and we offer this bit of conclusive evidence with Bow-Legs as a proof. "Pretz" himself declares that he is "stuck" on the town. "Pretz" is a student in every sense of the word. He does not act by flashes, but his goals, which he does not plant too far ahead in the deep blue, he always succeeds in reaching. Through his contact with "dough and yeast" he has acquired that stick-to-itiveness and power to rise up and surmount all obstacles, which is a solid assurance of his future success.

ALDEN EUGENE DAVIS
DICKSON CITY

Dickson City High School; Delta Sigma; Cap and Dagger; College Male Quartette; President of Operatic Society; L'Agenda Board; Bucknell Oratorio Society; Freshman Declamation Contest; Vice President Glee Club; Prize Sophomore Oratorical Contest; Latin Philosophical Course; Junior Ex.; Junior Prom. Committee. "Romeo," "Cutey."

"Gee, it's awful to be fat"

Behold, the rushing "Romeo"; Alden boasts of his ability to get up at 7:50, get down to breakfast and reach chapel in time to sing in the choir. The shock, however, invariably proves fatal, for throughout the rest of the day Alden carries out the slogan, "Classes are made for me to sleep in." But Alden at times shows energy and has made quite a name for himself in singing and public speaking as his above record will show. Here's success, Al, in your chosen legal profession.
MARY MARGUERITE DOWNER
GLASSBORO, N. J.
Glassboro High School; Biological Course.

"Kind hearts are more than coronets"

Mary's room is a favorite retreat for the third floor Freshmen, who find in her a combination of savings bank, advisory board, doctor, and mother confessor. These are not the limit of Mary's activities for she is making her mark in science. We prophesy she will be one to blaze the trail for women in some scientific pursuit.

RUTH EVELYN FARQUHAR
WEST BROWNSVILLE
Centerville High School; Kappa Delta; Latin Philosophical Course. "Rufus."

"Do all you can, let the rest go"

To look at Ruth one would not believe that she belonged to that terror inspiring aggregation which last year inhabited "Rough Neck Alley," or, in polite language, First Floor New. Though she looks quiet and shy she has a world of fun concealed underneath her calm exterior. Ruth was one of the girls who was most pleased to learn that a certain fraternity had purchased a home opposite to the Women's College.
ALICE CAREY FERRIS
PHILADELPHIA
Temple and Albright Preparatory Schools; Assistant Editor L’Agenda; Women’s Journal Staff; Sophomore Essay Prize; Delegate to Eagles Mere, 2; Secretary Philadelphia-Bucknell Club; Secretary Y. W. C. A.; General Science Course.

"O could I speak her matchless worth"

Of all the people of whom it is difficult to write, Alice is the foremost. She lives on a higher plane than most of us and seems only to come down to earth at meal times. Her interests are broad. She is scientific as well as philosophical and literary. And if you ever want to place a quotation, ask Alice—at meal time.

MARGARET MARY FINNERTY
DUNMORE
Dunmore High School; Kappa Delta; Freshman Declamation Contest; Student Executive 3; Woman’s College Journal Staff; Latin Philosophical Course. “Peg.”

“No mind can drive my bark astray”

Of Margaret I find there is much to tell, She does many things and does them all well; When it comes to dramatics she just can’t be beat, She’s a poetess too and her singing’s a treat; Of her prowess in German and French you can hear, While in lab she cuts worms without any fear, She can lead the class yell, Can make good friends as well, If you wish to know more, I refer you to Nell.
JEAN OLGA FLANAGAN
PITTSBURGH
Peabody High School; Pi Beta Phi; C. E. A.; Assistant Manager L'Agenda; Class Poetess, 1; Latin Philosophical Course. "Jean O," "Irish."

"Oh, how wonderful is the human voice;
It is indeed the organ of the soul."

Said Beattie to Atchison way over in France, "Have you heard from Jean?" Now, it is sad to relate that while these two soldiers were holding this conversation so far away, a mere Sophomore has discovered Jean’s charms and we fear that the outcome will be disastrous for the soldier boys. Nevertheless, we must not forget to mention Jean’s high scholastical ability and standing, her charming disposition and her low, mellow voice, for she is an all-around good girl.

HARRY CLARENCE FRIES
SHADY GROVE
Blue Ridge College; Class President, 1; Y. M. C. A. Cabinet; Manager 1917-1918 Lyceum Course; Junior Smoker Committee; Latin Philosophical Course. "Freeze."

"Lovers and madmen have such seething brains,
But he who loves Latin, let him rave."

Like all other enthusiastic young men, Fries has won a place in the hearts of his fellow students. He came here a stranger from a Shady Grove, and through his good looks became our first class president. There is a peculiar contrast between his name and his disposition. His body thrives at Fries-ing temperature. He sleeps with both windows open, and in his freshman year preferred to sleep in an open barn rather than submit to the gentle treatment of the "Sophs." Fries is a born leader of men and is an ardent advocate of any movement for the welfare of his "Alma Mater."
IRENE JEMIMA FRITZ
TREVERTON
Treverton High School; C. E. A.; Student Executive Committee; General Science Course. "Fritzie."
"If there be no loyalty there can be no great friendships."
"Fritzie" has just the right combination of seriousness and fun which it takes to make the ideal girl. When she wants to, she can furnish more real fun in a half hour than a person usually finds at a dozen entertainments. Her chief occupation is letter writing and judging from the number of her correspondents we at Bucknell are not the only ones who appreciate her charms. The best sport, the best friend, and the best roommate—these are the qualities which Irene Jemima has in full measure.

DAVID CHRISTIAN GALL, JR.
PHILADELPHIA
Temple Prep; Class Banquet—Toast; Sophomore Cotillion; Class Football, 2; Sophomore Declamation Contest; President Ministerial Association; L'Agenda Board; Greek Philosophical Course; Philadelphia-Bucknell Club; Junior Prom Committee. "Dave," "Gallie," "Swisz.
"For even tho vanquished he could argue still."
Never before has any mortal been better named; for Gall he has. This, however, is the secret of his success. A self-made man. "Dave" classes himself with some of our ancient Hebrew Prophets; live according to God's will and prosper. As one of our ministerials he has won considerable popularity for being a jolly good sport. He is one of our best students and deserves the success he is making of life. As a "Salesman on the Hill" in any line, he has no equal. Best wishes for you. "Dave," for all that the future has in store for you.
WEBER LATCHA GERHART
LEWISBURG
Bucknell Academy; Sigma Chi; Class Football, 1; Varsity Football, 3; Class Basketball, 1; Class Baseball, 1; Junior Smoker Committee; General Science Course. "Doc," "Web," "Gerry."

"A man he was to all the country dear"

Voices of praise arise when his name is spoken. With an unblemished character, a store of good nature, and lofty ideals of sportsmanship, "Gerry" is a practical college man. While he evades the Sem, he is quite a social bug in the town and can enumerate the various occasions which necessitate evening dress. Lewisburg society, however, misses him when he takes an occasional trip to Baltimore. Athletics claim him as well as society. After serving on class teams for two years he made his debut last fall in varsity style on the gridiron. Although not an honor student, "Doc" stands among the best and we have no doubt as to his future success.

AGNES McDOWELL GILMOUR
HAWTHORNE, N. J.
Paterson High School: L'Agenda Board; Vice President Y. W. C. A.; Frill and Frown; Student Executive Board; Elocution Contest; Student Volunteer Band; Latin Philosophical Course.

"A maiden fair,
So buxom, blithe and debonair"

Going or coming she sings and her bonnie nature is most of the time effervescing. But the well is deep, for the specialty of Agnes is friendship. There is little need to say more since she is so well known and liked by every one, especially by the Freshmen, who find in her a real "big sister." To all she is just Agnes, a kind, sympathetic, happy, and true friend. Given some great work of service, Agnes will be happy for life.
IRENE ELSIE GOSSWEILER  
ALLENTOWN

East Mauch Chunk High School; Perkiomen School; Wellesley College; Latin Philosophical Course. "Chummie,"

"Even though she's quiet, you scarce will find
A friend who is more true and kind"

"Chummie" is usually a quiet little lassie except when in pugilistic moods. She is a good student for she always has her work prepared but still manages to have plenty of time for other things. When one gets homesick, a sure cure is to go and visit "Chummie" and her victrola. We can't understand why she goes home so often, but we presume she likes to be where her heart is.

MARY EDNA GROVE  
WEST MILTON

Milton High School; General Science Course. "Slight is the subject, but not the praise"

Mary entered Bucknell with the intention of staying only two years, but after completing her course in Domestic Science, she discovered that she could not leave the class of 1919. She is ahead of most of us, for no matter how late she is to "Prexy's" class, she can simply blame the trolley service and all is well. Although Mary is small in stature, her many friends feel confident that her size will not keep her from doing big things in this world.
SUSANNAH DUNKLE GROVE
WEST MILTON
Milton High School; Latin Philosophical Course.
"Sue," "Dinah."
"So very kind and yet so shy!"

This young lady, known to her friends as "Dinah," and to Dr. Harris as "Miss Sue Grove," does not approve of wasting time. When she has anything to do, she attacks it with a do-or-die spirit and before you can say Jack Robinson her work is a success. She is a disbeliever in half-way business at any time, whether it is studies, running a car, or in making friends.

META FRANCES HALDEMAN
IVYLAND
Hatboro High School; L'Agenda Board; Biological Course.
"Ye Gods! Here's Meta"

The world renowned Ivyland sent to us a rare specimen of conglomerated energies in this fair-haired, dark-eyed rotund maid. The restless activity of her mind finds relief in things like nature and crotchetting, fussing and surveying, chemistry and fudge-making. Meta started out a Latin Phil., but when she reached Physiology, she was irresistibly attracted to the realm of science, and now she's going to be a doctor. There's a reason!
VORIS BLAIN HALL
MONTGOMERY
Montgomery High School; Muny Normal; Bucknell Academy; Secretary Rifle Club, 3; Forum; Electrical Engineering Society; Electrical Engineering Course. “Hallie.”

“And if we would speak true, Much to the man is due”

Voris is one of the busiest men about college, Simpson as a result of his consistent work, being in need of an assistant said, “He’s my man,” so Hall now classes himself with the faculty. Well, surely a good future is before Voris for one who can make good under “Simp” will be able to do great things in the future. So good-bye and success to you.

HOWARD JUDSON HANN
ANDOVER, N. Y.
Andover High School; Phi Gamma Delta; Vice President Mechanical Engineering Society, 3; President Bucknell Rifle Club, 3; Mechanical Engineering Course. “Snook,” “Jud.”

“Il Barbere di Siviglia”

“Who’s next?” Our own, original, and only Tonsorial Artist. Hails from the wilds of the ol’ Empire State. He came to Bucknell to combine a college course with the pleasure of “cutting up” a bit. He’s right there, too, with other lines of Mechanical work besides wielding a razor. If you don’t believe it, ask the Kerr Turbine Co. His social distinction and winning ways with the ladies have won for him the name of “Cupid.” We are sure that “Venus” will make a most successful Mechanical Engineer.
HOWARD LAVERNE HARER
WILLIAMSPORT
Williamsport High School; Lambda Chi Alpha; Williamsport-Bucknell Club; Class Baseball, 1, 2; General Science Course; Teaching. "Howd," "Rabbit."
"There is but one life, one love, one hope"

Did you ever know a person to practice what he preaches? Let us introduce you to "Br'er Rabbit," who lives up to his saying, "Have but one girl and be true to her." In vain has he tried to convince some of us in the wisdom of his advice, but he feels sure that when we reach his stage of the game we will agree with him. If Walter Camp studied "Math" sharks instead of football, "Howdy" would be on his first team. With a heart full of honest endeavor and a head full of every conceivable "Math" subject, especially strength, we expect our "Rabbit" to make long leaps in his chosen field.

MADONNA HARRIS
LACEYVILLE
Laceyville High School; Delta Delta Delta; Frill and Frown; Elocution Contest; Graduate in Elocution; Latin Philosophical Course. "Donner."
"None knew her, but to love her"

Yes, Madonna left the Seniors wise
To join our class and we all surmise
That there's a reason why she's so keen
To graduate now with the class of '19.

But no, you're mistaken, for why does she sit
With that far away look, and knit and knit?
Or why, as she knits, does she always read
Of "Richard" the great, and his wondrous deed?
Oh "Donner" is so wondrous nice
When you meet her once, you want to twice.
She can sing; she can play; and we know some time
You'll hear of her again, through deed and not rhyme.
PAUL ELMER HARTMAN
OLEY
Oley High School; Freshman Declamation Contest; Vice President Athletic Association; L'Agenda Board; Latin Philosophical Course. "Hart," "Paulie."

"The Alps are small compared to his ambition"

This is our representative from Oley. Paul came to us with the determination to make good and there is no doubt but that he has succeeded in doing so. He is a faithful student, a good worker and a true friend. It has been rumored that he is very fond of canoeing, and incidentally of swimming. He has also been noticed among the "fussers," although the way in which he smiles when he receives certain letters, makes us think that his heart is elsewhere. Never mind, Paul, we know your ability and you have our best wishes for success in solving life's problems.

JAMES RUSSELL HERMAN
EDWARDSVILLE
Edwardsville High School; Kingston High School; Delta Sigma; Editor-in-Chief L'Agenda; Bucknellian Staff; Cap and Dagger; College Orchestra, 2, 3; Freshman Declamation Contest; Sophomore Oratorical Contest; Latin Philosophical Course. "Slim," "Jim," "Russ."

"Behold the child, by nature's kindly law
Pleased with a rattle, tickled with a straw"

Shakespeare said of Cassius, "He hath a lean and hungry look; he thinketh too much." We would change it to "Slim' hath a lean and lanky look; he eateth too much." Herman is one of the bright lights of the '19 class as his record above will prove, being a musician, actor, orator, editor, and student all rolled into one. Yes, James, you simply have done nothing for your college during your career here, but we are willing to have scores more like you.
IRMA LENORE HESS  
EAST DOWNTOWN

Downingtown High School; Wilson College; 
Delta Delta Delta; General Science Course.

“She is pretty to walk with 
And witty to talk with 
And pleasant to think on too.”

Irma is a charming girl
The things she can do set one’s heart in a whirl.
She sings, she plays, she dances too;
Oh, numerous are the things that she can do.
When it comes to fussing—she does her part 
But a little “Brownie will ever guard her heart.”

HELEN ROBERTA HOFFA  
LEWISBURG

Lewisburg High School; Pi Beta Phi; C. E. A.; 
Freshman Declamation Contest (Prize); Class 
Secretary, 3; L’Agenda Board; Latin Philo- 
sophical Course. “Hel,” “Bobs.”

“On one she smiled and he was blest”

Down on Third Street lives a lass, 
Always prompt for every class; 
Never known to stay away 
Cause it is a rainy day.

Never known to miss a dance, 
Or any fun on foot by chance; 
Always stacking up your room 
Till you fairly rave and fume.

Plays the p’ano, recites, and sings, 
And does a hundred other things; 
And oh her smile! there ne’er was such. 
If you can’t guess her just ask “Dutch.”
CLIFFORD AMBROSE HOLLERAN
WATERTOWN, CONN.
Watertown High School; Delta Theta Upsilon; Class Banquet Committee, 1; Class Football, 1, 2; Class Baseball, 1; Class Basketball, 2; Chemical Engineering Course. "Cliff," "Ambrose."

"Come on and do, do, do what your mother did"
Under ordinary circumstances, "Cliff" is as quiet and unassuming as a slumbering babe, but the minute a pretty girl appears on the scene—"Who"—"When"—"How"—"What" burst forth hysterically together with various contortions and chuckles, which when passed over leave him in a sort of dream state from which he never returns the same. When not under the influence of a pretty face, "Cliff" is as industrious as the proverbial bee. A steady and hard worker in his chosen Course of Engineering. "Cliff" has never been known to "cuss" even over the hystericous intricacies of a slide-rule. Success awaits "Cliff," we feel sure, in his chosen profession.

WILLIAM FREDRICK HOLSING
CANONSBURG
Canonsburg High School; Sigma Alpha Epsilon; Phi Delta Sigma; Junior Smoker Committee; Electrical Engineering Society; Electrical Engineering Course. "Ted," "Canonsburg."

"And to his eye there was but one beloved face on earth, and that was shining on him"

"Ted" furnishes the supreme illustration of the "mutation theory." From a quiet, unassuming and innocent Freshman, he deteriorated into a noisy, and naughty Sophomore. 'Twas sad to observe the transformation. Then when he became a Junior, he began to rival Charlie Bell with the ladies. At present he is running a "neck to neck" race with said gentleman. By the time this reaches the press it is just possible that he will have left poor Charlie in the dust. We can predict nothing for "Ted's" future. Sad.
MARION ELINOR HYATT
YORK
York High School; Pi Beta Phi; C. E. A.; L'Agenda Board; Class Poetess; 3; Freshman Oratorical Contest; Jurisprudence Course.
"Babe," "Hat."

"Love is ever the beginning of knowledge, as fire is of light"

"Jack, Old Boy, do you know Miss Hyatt from York? The only girl who had spunk enough to take Elementary law?"

"Do I know her! Well, I should say so, Joe. She is the one girl I want to go up to see this term."

"Well, Jack, I didn't know we were rivals, but shake, old chap, she is a girl we can both be proud of, for she is very versatile. Especially striking is her poetical ability and her clever talking."

GEORGE FREDERICK JAMMER
TRENTON, N. J.
Trenton High School; Lambda Chi Alpha; Assistance in Shop; L'Agenda Board; Junior Smoker Committee; Mechanical Engineering Society; Mechanical Engineering Course.
"Slim."

"He was naturally a thinker for himself, confident of his own abilities."

To whom it may concern: This is Jammer, commonly known as "Slim." George came to Bucknell from the region of sand and mosquitoes, and soon proved to the faculty and his fellow students that he was a real wizard in solving the intricate problems of Profs. Bartol and Lindeman. As a reward for his good work he has been appointed an assistant in shop, where he helps to instill knowledge into the Freshmen. George also finds time to take a course in Milton, which bids fair to develop into a heavy major. Nevertheless, we can predict unbounded success for George in any line of activity he may choose.
FRANKLIN DELAVERGNE JONES
NANTICOKE
Nanticoke High School; Wyoming Seminary; Phi Gamma Delta; Manager Class Baseball; 1; Class Track; 1; Varsity Track; 1; Cap and Dagger; 2; 3; Glee Club; 3; Junior Prom Committee; Athletic Editor L'Agenda; Assistant in Chemistry; Chemical Engineering Society; Chemical Engineering Course. "Red," "Jonesie."
"For he was a scholar and a right good one, Fair spoken; of persuasive mind and very wise" Here is a man for whom the days are none too long. He possesses a smile that has won him many friends and seldom wears off, and a never tiring interest in the affairs of his class as the introduction shows. As a student he is a shark in math with the audacity to take Strength as a fourth subject and glory in the "ridea" from Lindie. As a Ch. E. he is one of the men that Doc, Brown vows will make a big success at the Works. During the last year "Red" has taken two new studies. One is toward the cultivation of his melodious bass voice and the other calls at different times and at different places, usually the Orpheum. We wish him a AA in both and success in the world.

RAYMOND DEWITT KLINE
WINFIELD
Sunbury High School; Kappa Sigma; Class Football, 1; 2; Varsity Football, 3; Junior Smoker Committee; Civil Engineering Course. "Bing."
"At-a-Boy"
"Bing" has become renowned as an extensive traveler from Winfield, where he was born, (opposite the post office). He wandered to Sunbury and there graduated with various honors. Still in the pursuit of knowledge he journeyed to Bucknell, where he distinguished himself in Athletics. "Bing" entered B. U. with the idea of preparing himself for the study of law, but since then has changed his course to Civil Engineering. This is entirely contrary to his personality for, usually when he begins anything, he completes the same. Continuing his travels he intends to go to Alaska after completing his college course, for he thinks that there are more opportunities here for Engineers than for Lawyers. But no matter what he eventually does pursue we feel sure of his success.
MARJORIE REBECCA KOSTENBADER
LEWISBURG
Lewisburg High School; Elocution Contest; Latin Philosophical Course.
"Early to bed and early to rise
Makes a man healthy, wealthy, and wise"
Whiz! There she goes—some hustler, one would say—Marjorie doesn't let any grass grow under her feet. Maybe it's because she had to walk in from out by the willows for two years. At any rate it's serving Marjorie well now for she doesn't have very much time to dilly dally around since she's busy with her elocution work and she's some elocutionist. If you don't believe that just live with her awhile and you will hear her give vent to her feelings in quite an oratorical style. Country girls are supposed to be quiet and retiring, but we'll hand it to Marjorie that she can elocutionize very successfully.

CHARLES BUNNEL KREITNER
HONESDALE
Honesdale High School; Delta Sigma; Freshman Declamation Contest; College Band, 1, 2, 3; College Orchestra; Class Track Manager, 2; Sophomore Cotillion Committee; General Science Course. "Kreit," "Charlie."
"Sleep's natural brother"
As a teller of stories Charles wins his big "rep," because he always takes care to fill 'em with pep. Charles rattles the ivories and the harp strings too; Oh, a great many clever things he can do. He can sing (?), can dance, and the trombone play And at Bromley Smith's oratory he wins the day; He's a pinochle shark and I've heard it said That he has his 8:15's served in bed.
GEORGE MERRILL KUNKLE
LEWISBURG

Bucknell Academy; Mechanical Engineering.
"Kunk."

"There is written in your brow, honesty and constancy" 

This lean and lanky lad is a member of the group of commuters from the town and its suburbs. As a consistent and good student "Kunk" ranks among the best of them. Quiet and unassuming he is always ready to lend a helping hand to others. By those who know him he is vouched for as a good fellow and friend. For "Kunk" we predict a successful career in his chosen line of engineering and wish him the best of luck.

NAOMI B. LANE
BROCKWAYVILLE

Brockwayville High School; Pi Beta Phi; Y. W. C. A. Cabinet; Domestic Science Course,
"Shady Lane," "Nim."

"To friendship, every burden's light"

Naomi hails from Brockwayville for a four-year's course in Domestic Science. Already she has successfully mastered the art of cooking. However, the Sem cannot claim her entirely, for she is taking several subjects up the Hill. Only those who know her well can appreciate her sterling qualities. Naomi gladly assumes her burdens and is always present when it comes time for fun. Here's wishing her the best of success.
DOROTHY BEAUMONT LAWRENCE
BUTLER, N. J.
Butler High School; Pi Beta Phi; C. E. A.; Latin Philosophical Course. "Dot,"
"As merry as the day is long"
This is one of the prima donnas of the class. Her diamond ring is quite a mystery to her friends, for sometimes it makes its appearance on her right hand, sometimes on her left, and sometimes on her dresser. However, if "Dot's" love affairs are somewhat complicated, we predict a brilliant future for her because her jolly disposition will make friends for her wherever she goes—even at Lehigh.

CHESTER ROBERT LEABER
WILLIAMSPORT
Williamsport High School; Delta Sigma; Cap and Dagger; Dramatic Trio; Freshman Declamation Contest; Sophomore Oratorical Contest; Junior Exhibition Contest; Class Banquet Committee, 2; General Science Course. "Chet,"
"I am not mad; this hair I tear is mine"
Anything melodramatic like the above is liable to be uttered by our subject of discussion. "Chet" is the accepted without-a-rival hero of the Cap and Dagger Dramatic Society, and not only plays the role of the heart smasher but lives up to the part quite well in daily life, though unconsciously. At present "Chet" is handicapped in his enjoyment of college life by his super-weighty course under the personal direction of Doctors Helm, Martin and Colestock.
ELVIRA BURLAND LEWIS
SAINT CLAIR

Saint Clair High School; Kappa Delta; C. E. A.; General Science Course. "Lewie."

"She's the sweetheart of Sigma Chi"

She is the youngest girl in our class,
Is a tiny auburn-haired bit of a lass.
Great is her loyalty, to her friends she's e'er true;
Mighty her charm for a certain man too.
All the girls love her and know she's true blue.
Cheerful and happy with a heart full of song.
Her bright smile cheers us when the world goes wrong.
In "Lewie" 19 has a girl brave and strong.

RAYMOND PLANK LEWIS
LEWISBURG

Bridgeton High School; Lambda Chi Alpha; Class Football, 1; Class Track, 1, 2; Varsity Football, 3; Orchestra, 2; Y. M. C. A. Cabinet, 3; Junior Prom Committee; Latin Philosophical Course.

"Bunny."

"So near and yet so far"

"All that run for nothing! We should have had a touchdown." Such is his favorite expression after a game. A "hundred yard man" in the back field is a combination hard to beat. Football looms large on "Bunny's" horizon, but even it pales into insignificance when placed alongside of some unknown "luminary" in Bridgeton. So great, in fact, is this attraction that he mysteriously disappears every time he lands within a radius of 30 miles of said city. Methinks you can be the hero there, old boy, and get your touchdown after a long run. May the Gods be with you.
JAMES WILLIAM LOWRY
Uniondale
Uniondale High School; Carbondale High School; Forum; Rifle Club; Orchestra; General Science Course; Junior Smoker Committee. "Jimmie," "Prexy."

"They who wish to sing always find a song" "Jimmie" has a walk which is hard to imitate. When our hero was a wee small freshman, one dark night about twelve-thirty, some terrible Sophomores came to call on him. Part of what ensued has been deleted by the censor, but this much we will relate. He was asked the question: "Are you the president of this university?" "No-o-o, Sir-r-r," was the response. "Well, you walk as though you thought you were," said the terrible Sophomore. But don't let this trouble you. "Jimmie." Just keep moving forward for "Prexy" says that the trouble with most young people is that they don't have enough self-confidence.

BENJAMIN MARKOWITZ
Pottstown
Pottstown High School; Class Football, 1, 2; Freshman Declamation; Sophomore Oratorical Contest; Class Banquet, 2, and Toast; Sophomore Cotillion; L'Agenda Board; Jurisprudence Course. "Pendulum," "Mark," "Ben."

"Small in stature, but mighty in power" Oh, Thou Son of Jacob; Thou prince amongst men. Who hath not seen or felt thy power in Ye Olde Institution from thy freshman year until the very moment that I pen these words? Thou art uprighteous in character, clean of speech and tidy of appearance. Thou art a jolly, good fellow and never gettest sore, though Ye joke be on thy side. When Ye Olde Professors of Ye Olde school passeth out the A's, thy lot was full and running over. But, still, my ancient Son of Israel, Thou art not a book-worm, for Thou taketh part in Athletics; on the social committees and never didst Thou shirk the duty of Thy Alma Mater. Oh Thou Son of Jacob, We, Thy Classmates prophesy for Thee a wonderful career to whatever Thou turneth thy hands.
RUTH ADELIA MINNIG
WEST HAZLETON

Hazleton High School; Latin Philosophical Course.

"Twas a graceful pose"

That is what Ruth naturally assumes so that taking her picture is a simple matter for the photographer. Ruth is one of the quiet members of the class, usually seen in company with her room-mate Helen. Her chief fault is her weakness for writing frequently to State College. She has also become very interested in rural life and although she expects to become a teacher of languages, we see her living in the future a quiet peaceful life on the farm.

CHARLES WILLIAM MITCHELL
MILROY

Milroy High School; Junior Smoker Committee; Sophomore Oratorical Contest; Latin Philosophical Course. "Mitch."

"His words mean much to those persons who can understand them"

"Mitch" is a typical son of the Keystone state—always ready to lend a practical and helping hand. He is a geometrical enigma—that is, an oblong figure that cannot be described and is equal to anything. Mitchell doesn't believe in excessive sentiment such as serenading with Jew's harps or mouth organs and touching love sonnets. Like all other college men, "Mitch" hates to leave home, not because of home ties but rather because of another and stronger affinity. He is an all around scholastic man and possesses enough sand to carry him to a ripe and useful old age.
CHARLES BYRON MOORE
REYNOLDSVILLE
Reynoldsville High School; Sigma Chi; Theta Delta Tau; Phi Delta Sigma; Junior Prom Committee; Class Banquet Committee, 2; L'Agena Board; General Science Course.

"Chuck."

"I am not in the roll of common men"

Here is "Chuck," the Junior Beau Brummel. He came to college for a broad education and he firmly believes "There are things we learn in college which professors do not teach." "Chuck" is an all around fine fellow and we are glad Uncle Sam does not need him yet as he would be missed in all college activities as badly as he is now in his classes. We are certain he will not leave us soon as he has interests in town which he cannot leave.

But this is no point to tarry on:
We all know that interest is Mari-on.

MARGARET SALOME McLAUGHLIN
WEST NEWTON
West Newton High School; Delta Delta Delta; L'Agena Board; General Science Course.

"Mar."

"When she will, she will; you can depend on it.
And when she won't, she won't and there's an end to it"

Our "Mar" hailed from West Newton, Pa. A charming town many miles away.
And the class '19 never can pay
Its debt of gratitude for that blessed day.
"Mar's" competent, wise, clever, and gay—
Talented with dramatic ability they say.
She cooks, and she sews and "Landy" knows
She does them all in the most perfect way.
MARY MATILDA McLAUGHLIN
WEST NEWTON
West Newton High School; Delta Delta Delta; C. E. A.; Student Executive Committee, 2; General Science Course. "Tip."
"What is life without enjoyment"
"Tip" is a jolly co-ed
With a fondness for nature 'tis said.
When it comes to fun, she can't be outdone
And in jolly good times she's ahead.
She's very proficient in her studies, too,
Preparing her future life work to do.
But her favorite pastime it can easily be said
Is pursuing the study of the History of "Ed."

KENNETH WILSON OAKLEY
MANASQUAN, N. J.
Manasquan High School; Lambda Chi Alpha; Class Banquet, 2; Toast; Assistant Editor L'Agenda; Jurisprudence Course. "Oak," "K," "Hecker," "Lagger."
"One who strives earnestly and perseveringly"
While quiet and reserved, this once—shy youth of Jersey has become acclimated to Bucknell Atmosphere and is well versed in practical college life. Although kept busy as a "Brush Magnate" "K" still finds plenty of time to devote to studies, and is one of our best students. Self-dependence and perseverance have taught him the ways of the world, and are responsible for his success. As a companion he is a jolly sport, and has recently had his name inscribed on the tussler's list. With plenty to do and this always well done, we predict a great future for our youthful business man.
THOMAS MAURICE ORCHARD
CARBONDALE
Carbondale High School; Phi Gamma Delta; Mechanical Engineering Society; Oratorio Society; Operatic Society; Manager L'Agenda; Mechanical Engineering Course. "Tommy," "Mosquito."

"Whose little 'oo' is 'oo'. That Adorable Tommy:
I feel just like his grandmother"

"This is T. Maurice Orchard talking" is the salutation one hears upon taking down the receiver when "Tommy" calls on the telephone. "Tommy's engaging personality and impassioned musical ability have won him a place of prominence in the college world. Pianist extraordinary, apostle of systematic living and loving, a staunch supporter of Lindeman, and worshipper (?) of Burpee, here we have some of his claims to immortality. In fine we have the rarest of all specimens,—the college man without regrets. His past we know; the glorious present is before us; his future is on the knees of the gods.

HOWARD READING PARS
WILLIAMSPORT
Williamsport High School; Lambda Chi Alpha; Williamsport-Bucknell Club; Freshman Banquet Committee, Mechanical Engineering Society; Mechanical Engineering Course. "Ty."

"Since there is no help, come, let us kiss and part"

"It is better to have loved and lost than never to have loved at all." But never fear, "Ty," a fine congenial nature like yours will surely discover some of the World's hidden treasures before the old thing "Barns." Pars has one motto that is his constant source of inspiration—"Never let your studies interfere with your education." He would rather do a little "$900" than a week's "descript" at any time. Still, he has a steadfast purpose which is guiding him continually and in due time is bound to lead him to his heart's desire—an M.E.
ELIZABETH McLEAN PATERSON
MONTGOMERY
Coatesville High School; Latin Philosophical Course. "Patty."

"She had dancing eyes and ruby lips, Delightful boots—and away she skips" Gifted with a sunny disposition and marked especially by intelligence, "Patty" is getting the most out of her college course. She hustles down to Ethics class in the morning—usually late—but always happy. "Patty" says she's going to be a Red Cross nurse. We wonder who is the doctor.

HAYES LEROY PERSON
WILLIAMSPORT
Williamsport High School; Delta Sigma; Assistant Editor L'Agenda; Assistant Editor Bucknellian; Assistant Editor Commencement News; Manager Bucknell Press Bureau; Junior Smoker Committee; General Science Course. "Scoop."

"Such a lil fellow"

If there is a busier man around Bucknell than Person he is yet to be discovered. However, if he does correspond for a dozen newspapers in all parts of the country, "Scoop" the cub reporter, finds time to keep up his reputation of being the quietest but most ardent of Bucknell's fussers. In spite of his smallness of stature, when recently examined for the draft, he is reported to have registered a six (?) inch chest expansion.
JAMES KANE PETTITE
BROOKLYN, N. Y.

Bucknell Academy; Delta Theta Upsilon; Class Banquet Committee, 1; Junior Smoker Committee; L'Agenda Board; General Science Course. "Jimmy."

"Absence makes the heart grow fonder."

While still a mere boy "Jimmy" decided that he preferred to lead a simple life instead of that in the great metropolis. So it was that he chose the peaceful haunts of Bucknell in which to spend his early days. During his stay in the Academy, the atmosphere of this college obtained such a hold on him that he was forced to return and entered the class of 1919. In college, with access to the Seminary, Bucknell made its "Hold" on him secure. Fettered as he is by his vow to the absent one, he manages to be a good fellow among his classmates and we wish him the best of success.

FRANK HEILMAN RIALE
SOUTH WILLIAMSPORT

South Williamsport High School; Lambda Chi Alpha; Williamsport-Bucknell Club; Chemical Engineering Society; Chemical Engineering Course. "Frankie," "Ajax."

"Experience is the best teacher."

Oh! if expression were ours, how might we paint thee? Begone, ye thoughts that haunt my pen; he is but a modest, bashful, unassuming boy, and let him live in the temple he has built even though it is turning to glass. How high Frank will go in his Chemical profession depends on the amount of high explosives he insists on carrying around in his pocket. "Pocket Bomb," was the technical term he applied to his experimental production. A level head and a dogged determination have given him a lasting "strength" that will carry him over all obstacles and bring honor in the end to himself and the class of '19.
MARION RIESS
MERCEDES, TEXAS

Marshall High School; Mercedes High School; Texas University; Y. W. C. A. Cabinet, 3; Pi Beta Phi; Mu Phi Epsilon; Latin Philosophical Course. "Texas," "Tex."

"I have a heart with room for every joy"

A girl of much travel and discretion one would say. For she comes from Sunny Texas so far, far away. She knew of old Bucknell, and she heard of Junior fame, So she hurried here right quick and registered her name.

"Tex" is always doing something, she is busy every minute. If there's anything on foot, be sure "Tex" is in it. She's taking lots of music, and other studies, too.

Indeed, she is so busy she knows not what to do.

If you ever give a circus, why here's a fine ring-leader. Just call on first floor, near, if by chance you need her. If you wonder about her love affairs, just wait until You get talking confidential like and then you'll hear of "Bill."

FRANK WESLEY RORABACH
LEWISBURG

Lewisburg High School; Sigma Alpha Epsilon; Theta Delta Tau; Phi Delta Sigma; Sophomore Cotillion Committee; Junior Prom. Committee; L'Agenda Board; Latin Philosophical Course. "Ror," "Whittie," "Scllug."

"On with the dance! let joy be unconfined"

"Ror's" chief occupation is attending to the High school and "Sem" girls. As a student, also, you would expect one of his "Irish" lineage to be far superior to the common crowd. Such is "Whittie." He especially delights in those subjects which offer a match for his ability. You never find "Scllug" pursuing a "snit." "Ror's" specialty is wearing the loudest neckwear obtainable in an Atlantic City hock-shop. Because of these attainments, we might add that Frankie will be a genius as a professor in some girl's school, for he just naturally makes the girls be interested when he starts telling them things.
CHESTER FRANKLIN SCHROYER
CARROL
Lycoming County Normal School; Junior Exhibition Contest; Latin Philosophical Course.
"Chet."

"Vincentum matrimonii durum est"

"Oh fright"! Can you guess why this bit of studious humanity came to Bucknell? When Schroyer is present there is no need for an encyclopedia. He is an authority on anything from woman psychology to nature study. His mysterious visits home (?) have always puzzled his classmates. Finally the mystery resolved itself by Schroyer becoming a member of a joint partnership for life. "Chet" is an exceptional story teller. His stories contain more humor than O. Henry and more pathos than Edgar Allen Poe. He possesses many admirable qualities among which is his ability to concentrate upon whatever task he has in hand.

KARL DAVID SMITH
CATAWISSA
Catawissa High School; Phi Gamma Delta; Class Football, 1, 2; Varsity Football, 3; Band, 1, 2; Junior Smoker Committee; Chemical Engineering Society; Chemical Engineering Course.

"The bigger they come the harder they fall"

Allow us to present to you K. D. Smith, ardent champion of Doc Brown's chemistry and feminine class presidents. Smitty's weekly pink slip never fails to make him Buck the line when playing football. This "Rock of Gibraltar" glories in the feats of the natives of Catawissa, both in the world and at home, and never hesitates to speak of them. "Portals" belongs to the "Make Good" class and as to the fair sex he says nothing doing, but we cannot see how Cupid could rob a man like him of their affections. Should he live up to the expectations of Doc Brown and his classmates, as he undoubtedly will, Bucknell will have added to her list of alumni a successful Chemical Engineer in every respect.
SAMUEL JACOB SMITH
TYLERSVILLE
Logington High School; Lycoming County Normal; Junior Prom. Committee; Forum; Class Baseball, 2; Latin Philosophical Course. "Sam," "Schmidt."

"The only shots that count are the shots that hit"
He may not be tall and he may not be thin, but he’s right there when there’s work to be done and he’s right there on to the finish. Yes, “Sam” always has a habit of being prompt, so much so that one morning when he got up, had looked at his watch hastily, he decided that it was about time to go to chapel, so to chapel he went. To make a long story short he found no one in the chapel and the clock there said that it was only seven o’clock. Keep it up, “Sam,” the early bird catches the worm.

ELIZABETH FAIRCHILDS SPYKER
LEWISBURG
Lewisburg High School; Pi Beta Phi; Class Historian, 3; Freshman Declamation Contest; General Science Course. “Lib,” “Betty.”

“When our old pleasures die
Some new one still is nigh;
Oh, fair variety”

Our “Lib” needs no introduction. Everybody knows her. She is not only well liked by the girls but she also has many admirers among the men. “Betty” seems to have taken a particular fancy to the “Jimmies” and frequently we hear her singing, “Carry me back to old Virginy.” But we can’t class her among the dreamers for her interest in horse-back riding, swimming, tennis and athletics keeps her wide awake.
GEORGE ALLEN STARKWEATHER
CABONDALE
Carbondale High School; Forum; Class Treasurer, J; Y. M. C. A. Cabinet; L'Agenda Board; Chemical Society; Chemical Engineering Course. "Abie," "Starkie."

"Sunshine is light, so is 'Starkie.'"

In his Freshman year one of his instructors in the institution which still believes in the use of the "hickory stick" named him "Abe Lincoln." To some of his characteristics the name fits well; to others badly. "Starkie" gets there like Abe did, but he gets there as quickly as Bromley. "Starkie" has such a wise look that when he arrived in town in his Freshman year the man in Wolfe's drug store asked him, "Are you back in the college teaching this year?" Cheer up, "Starkie," you may be too small for the ambulance corps, but you are big enough for "the works," or the draft army.

RUTH STEIN
LEWISBURG
Lewisburg High School; Pi Beta Phi; Freshman Declamation Contest; Latin Philosophical Course. "Rufus."

"Simple duty hath no place for fear"

Perhaps you have been deceived by the appearance of this meek little lady, for you will find she is bubbling over with fun. Her originality and dry humor have caused much merriment among her friends. Ruth is devoted to her books and the result of her faithful work will undoubtedly be seen in the future. We are unable to say much at present in regard to Ruth's love affairs, but as the saying goes—"Still water runs deep."
RUSSELL RAY STOUT
CEDARVILLE, W. VA.

Broaddus Institute; Delta Theta Upsilon; Treasurer Ministerial Association; Operatic Society; Classical Course. "Rus."

"Hard work means sure success"

"Rus" on his entrance to Bucknell joined the class of '18, as a sophomore, but owing to illness was compelled to drop out before the year was over. "Rus," however, recognizing the best bunch ever in '19 refused to let a good chance slip and he promptly joined our group this year. As a good fellow and student, "Rus" stands high. Although not a consistent fuser, the fact that he appreciates the Fair-sex is borne out in his quiet jaunts now and then to the old Sem. For "Rus," we predict success in his chosen profession and wish him the best of good fortune.

CATHARINE GEHRETT THOMPSON
REEDSVILLE

Reedsdale High School; General Science.

"Tommy."

"On with the dance"

A little dark haired miss is "Tommy," whose merry smiles and kindly ways have won her many friends in general and one in particular. Especially is "Tommy" a friend of the Freshmen, both sexes included. She is thorough as a student and —also as a fun maker. She does not let her college course interfere with her pleasure, nor her pleasure with her course. "Tommy" is "Tommy" and no one else. In fact, there is only one like her and that's herself.
HELEN GLADYS VANDYNE
HAZLETON

Hazleton High School; Latin Philosophical course.

"The proper study of mankind is man." 

From the lofty city of Hazleton comes this member of our class. Recently, however, Helen has developed a remarkable interest in affairs in Mifflin County, best explained by some of the inhabitants thereof, for 'tis love that makes the world go 'round for Helen. She has high ambitions of some day becoming a missionary, but we predict that her future occupation will be rather of a domestic nature which seems more suitable to her affectionate disposition. In closing, let us advise you, Helen, in the future to beware of the bridge!
CLYDE EARL RUSSEL WENRICH
SINKING SPRINGS
Muhlenberg High School; Civil Engineering Society; Treasurer Bucknell Rifle Club; Civil Engineering Course. "Kaiser," "Dutchie."

"May he live to eat the bun that scratches on his grave"

This saxon-haired youth hails from a land of plenty and has his definite opinion as to what constitutes a royal meal. He is sometimes known as "Kaiser," not because of his German sympathies, but rather because of his true German heart. Clyde is no high society man or strong "fusser," but when he does make his appearance, he is there with body and soul. His interest in women is merely a passive one. At times he raves about a certain "Beckie"—merely a vane creation of his imagination. "Kaiser" is always ready to laugh at a good joke, but never becomes peevish when the joke is on himself. He is always jovial and never wears a grouch. We admire him for his steadfast moral qualities, and hope that he will some day win laurels in the engineering world.

HENRY MEYER WEBER
WASHINGTON, D. C.
Central High Washington, D. C.; George Washington University; Sigma Alpha Epsilon; Art Editor L'Agenda; Medical Society; Assistant in Biology; Pre-Medical Course, "Pinkie," "Henry," "Senator."

"Science is like virtue, its own exceeding reward"

No, "Pinkie" is not from Washington, D. C., as he would have you believe, but only from Mt. Rainier. His closest approach to affiliations at the National Capitol, is an intimate acquaintance with the porter at the British Embassy. Despite these well worked bluffs of "Pinkie," he manages that soft southern drawl to perfection. "Henri" won his position as Art Editor of "this here sheet" because of his habit of disgracing perfectly good stationery with a pen and green ink. Oozing with originality at every pore, "Pinkie" will make his mark as an orator or professor of "Microscopic Technique" and is now making superexcellent progress in this direction by using three mile words to express two inch ideas and wearing "tigger" shirts and mourning spats.
BENJAMIN JAMES WILSON
WEST PITTSTON
West Pittston High School; Rifle Club; Mechanical Engineering Society; Mechanical Engineering Course. "Willie Benson," "Prexy," "Ben."
"A smile is catching—Ever try it?"
"Willie" is a good all around fellow and the guy who knocks the Prof's eye out at "Math." The divine powers have endowed him with a generous portion of initiative. That is his prominent characteristic. In fact, it is too prominent at times when he becomes a terror to the "Frosh." As an engineer "Willie's" program follows the order of work first, sleep next, and fun as a third resort. With such a creed he has fair prospects of becoming a captain of industry some day. Fellow readers, watch out for new designs in dog-coops, milking stools, and collapsible toothbrushes. As a finale, we don't have to wish him God-speed, for he's going like the devil now.

THEODORE CORTLAND WILLIAMS
VINELAND, N. J.
Vineland High School; Syracuse University; Kappa Sigma; Varsity Track, 2; Mechanical Engineering Course. "Cort."
"Ye Gods"
It seems impossible that such an intelligent looking youth should be the product of a town boasting of the largest home for feeble minded people in the world. However, heated arguments are the only things that betray him, and this may be attributed to the course which he is pursuing. In speaking to "Cort," if we were to address him by his full name, it would be a great loss of time—therefore it is "Jes" Williams from morning till night. We all appreciate "Cort's" ability in track, not only around the "Four Mile," but in boxing matches. Due to the sincerity with which he enters into his work, "Cort" will be successful. He has already shown ability as an assistant in Foundry and we feel certain that some day he will be a great Engineer.
RAYMOND A. WITCHEY
OSCEOLA MILLS

Osceola Mills High School; Lambda Chi Alpha; V. M. C. A. Cabinet, 3; Latin Philosophical Course. "Ray," "Sniper."

"Seek, and Ye Shall Find"

This, ladies and gentlemen, is Osceola Mills' most versatile citizen. He hunts snipe, chalks the pool rake, plays the guitar and politics. "Ray" is literally brimful of ambition and when you couple onto this a determination that "if at first you don't succeed, try again," something is bound to move, somewhere. According to Hoyle "Ray" should be a dignified senior, but the affairs at Osceola demanded his attention for a year with the result that '19 instead of '18 claims him. The "old pep" and a legal education is an ace high hand, "Ray." Go in and win.

CLYDE WILLIAM WITHINGTON
SNYDERTOWN

Bucknell Academy; Class Football, 1, 2; Class Baseball, 1; Electrical Engineering Course. "Mike."

"Hard work means sure success"

"Mike" has been known to his fellow classmates by a characteristic smile. To doubt that "Mike" is a student is to doubt that the world is round, for he is very popular with the fellows when it comes to giving help with "strength" or any other subject. May the world be good to you, "Mike," and may you be just as good to it for we predict for thee the best that this life can give you.

82
EMMA IRENE YARNELL
LEWISBURG

Lewisburg High School; General Science Course.

"Silence is commendable"

Never was known a remark to be heard
That was not original, yes, every word
From this young lady, whose fame has been won,
But, sad to relate, revealed only in fun.

More acquaintances, moreover, think she is quiet.
Her friends, however, don’t fail to deny it.
But her pleasant chatter often scatters the blues
And wakes her neighbors from many a snooze.

A Junior you say, we are proud to claim her.
Could she be a blot on the escutcheon—no, sir!
She’s a friend to us all, both great and small.
And a very good student, which is best after all.
SOME FAVORITE POSES
In the Service
Juniors in Service

If Life were one grand Utopia as "Sir Thomas More" would have us believe it is, to-day the Class of "1919" would graduate as one grand whole. Unfortunately and yet fortunately, perhaps, it is not. We, as human beings often have to contend with the reckless ambitions of men and thus it is today that the reckless ambition of one man leads him to believe that he is called by God to rule the world, regardless of the rights and feelings of individuals.

It is to blot out this false idea that our Fellow Classmates of "1919" have left us. It is to permit the people to express their individualism, that these brave sons of Bucknell and Classmates of "1919" have shouldered the musket and said by their very act, "Democracy must prevail, Autocracy must go."

As we glance over the name of each member we cannot help but feel the loss to the school and incidentally to the class. Take old Dick Carvolth, for instance. Dick was always known to his fellow members as a Bucknell booster: always willing to help the other fellow. Then there was Dave Martin. We always will remember Dave, because of his jollity and lively disposition. "Well, Alex, I see we have you with us today," was a favorite way of some of the Professors greeting Chalfant, not because he was dilatory, but because Alex thought "It is nice to get up in the morning, but it is nicer to lie in bed." Clarence Davis, of Nanticoke fame, is the next on my list, and while it cannot be said of "Sup" that he took after his father in his search for knowledge, yet it cannot be denied that "Sup" studied once in awhile. Why, hello, Joe and Tommie. How's it going with you? It seems almost impossible to think of one of these boys without thinking of the other, for they were always together. And Mangan and Dent are said to have gotten their "B" in Football, even though they might have been less fortunate in their studies. Let me see, who is that—er—eh—religious sort of a fellow? Oh, yes, I know who it is. It's Duffee. Yes, Duffee, you're far, far across the seas now, but your good in-
fluence shall never be forgotten at this old institution. Like Reading Pretzel
fame, so is Epler of Reading, famed for his frankness. If you wanted to hear
Epp's views on anything, just get him started and there is no doubt that you
would hear his views and opinions and not somebody else's. Say, Buddy, do
you see that six-foot pole down there? Would you mind bringing it up to me?
Ah, get out, that ain't no pole—that's big Six Gaenzel. Well, by gad, if it
ain't. Hello, Six old boy, practicing another high jump to beat old Gettys-
burg? And, by gum, if here don't come Jimmie Pierce sprinting up the road
at a 560 clip—going some—eh, Jimmie? But who is that modest looking fel-
low standing over by the Library? Oh, yes, that's Herman Shultz. Herman
doesn't say much, but he makes up for it in thinking. When you want to see
a student just look at Herman and you have a typical one right there. "I tell
you, fellows, there's only one way of being happy in this world and that's by
being a Christian." Beat it—here comes the minister. That's all right, fel-
lows, for it's none other than Harry B. Thomas, and Tommie is a good scout.
He is religious but he hasn't forgotten the human side of life. Signals 2—
4—5—9—. Ah, what's the matter with you, Hendren. Don't you know the
signals? Now, Mac, don't get peeved or you won't get any milk in your
desert tonight. (MacDermott, to himself. "It's no use getting sore at
Johnnie, for you can't stay that way long.") Alright, let's go: 2—4—6—.
Perhaps my gentle readers are tired of listening to this nonsense, so I'll now
hand you over to some of our philosophers. Take Stewart, for instance. His
motto was "Work and be Happy," and you can bet that Harold always car-
rried this out to a "T." Donald Laher was also of the Stewart type and yet
it could never be said of Donald that he was a book worm. He had a mixture
of both, the "work side" of life as well as the "play side," and well balanced
was he in the administration of the same. If I were to sum up my opinion of
the next man on the list (Gurney C. Seeber) in just four words I would say,
"He is a man." There is nothing more to be said of him, for, I think, that
this will convey enough to my gentle readers. Now, who do you think comes
next? Ah, guess. Well, it's none other than Eggie Quinn. I have often
heard it said that you didn’t have to see Eggie to know that he was coming. You just had to hear him laugh and then you could surmise the rest. If only more of us had the laugh or smile, which would characterize us among our friends, what a world this would be. Emerson was famous as a poet, but he had nothing on our fellow classmate, Peck. Peck was some poet and this L’Agenda is the proud publisher of one of his poems. In the same manner would old Demosthenes suffer a stroke of apoplexy if he heard Walt White orate. Walter sure could hand out some line and often did he make Bromly green with envy. Then there was Tom Cockill, Baldauf, Red Gilbert and Walter Boyles, all of whom contributed much to the Athletics of our dear institution. Many were the days and the weeks that these boys drilled, ran through signals, etc., all for the glory of “Old Bucknell.” But still I entreat thee, gentle reader, to hold thy patience, for the storm tossed class of “1919” has some more heroes in its ranks, for there was Russ Hedge, fiery, but steady; Charles Bashore, quiet but active; Nelson Rounsley, who was known by his quickness of movement; Dick Mason, who was characterized by a smile that never wore off, and Harry Potts, who although he wasn’t very fond of studying, looked upon it as a duty and did it, and—yes—I almost forgot Arthur McKinley. Arthur is another of the Herman Shultz type. He doesn’t say much, but he makes up for it in thinking. Say, who the dickens swiped my tobacco. Well, if it isn’t old Irish Kallay spouting again. Kallay was Irish, but you couldn’t hate him for that, for he had a disposition that couldn’t be surpassed. The same thing is true of MacEmerick. Mac was always jolly and no matter how bad things looked Mac could smile and say, “it’ll all come out in the wash.” Whenever I think of the following four men, Dutch Miller, Heinrich, Finger and Goerdel, I think of a sign which hangs over my desk and which reads, “Don’t Worry—Smile,” for these four fellows are typical “Don’t Worry—Smile” men. Always on the hump, always smiling, but never worrying were these four noble sons of Bucknell. And still I caution you, enduring reader, to steady thy nerve, for now my list has narrowed down to four noble
souls, Albert Gandy, Mike Worthington, Harold Beattie and Anthony Wydanovich, and, like all the rest, I have nothing but good words and pleasant recollections for their stay at Bucknell.

Can it be possible that so many noble sons of the Junior Class have left their Alma Mater for the higher call of arms? Can it be that they have seen the need of service? Yes, it is, for they have heard the sound of the rolling of the drums. They have heard the call for recruits. Some are “Somewhere in France.” Some are in the training camps, but wherever they may be, they are serving their Alma Mater in a higher capacity. They have seen the need of Democracy and are willing to fight for it. They have seen the evil of Autocracy and will help to tear it down. Oh, thy noble Sons of Bucknell, our hearts, as Fellow Classmates go out to you and wish you success and we are sure that, when at the end of this terrible conflict, the names of the heroes are written on that great marble slab, our class shall not be lacking in names and everywhere we shall hear the “Well done, good and noble sons of ’1919.” May God protect you in your new calling and bring you back once more to the College you love so well.”
HAROLD ANDREW STEWART

*Ambulance Corps, Somewhere in France*
Ashtabula, Ohio

Delta Sigma; Class Football, 1, 2; Class Baseball, 1, 2; Assistant in Rhetoric.

"'Goodbye Broadway, Hello, France,' is no longer an ideal with us, but a reality. We are getting a good taste of trench life over here and often wish we were back at the old college."

DONALD SHEEDER LAHER

*Company C, 305th Engineers*

Everett, Pa.

Kappa Sigma

"My spirit for old B. U. has not diminished whatever. I read the papers and the college paper and in fact everything which might contain any college news. Bucknell is well represented at the camp and all wish they could be back with you and help to put out the L'Agenda."

GEORGE HAROLD BEATTIE

*Ambulance Corps, Somewhere in France*

Shippensburg, Pa.

Phi Kappa Psi; Class Football, 1; Varsity Baseball, 2; Class Baseball, 1; Sophomore Banquet Committee.

"Somewhere in France" is not quite so good as 'Somewhere on Bucknell Campus,' but it's all in army life, boys."

JOSEPH DAYKIN DENT

*Medical Corps*

Pittsburgh, Pa.

Sigma Chi; Varsity Football, 1, 2; Varsity Baseball, 2; Sophomore Class President.

"My best wishes are always with the Class of 1919. I wish I could be back with the boys and do my little bit for the class, but I am now doing my little bit for Uncle Sam."
LEONARD F. WORTHINGTON  
Sergeant Q. M. C.  
Eagles Mere, Pa.

Forum, Vice-President-Elect, 3; Class Football, 1

"It was with a feeling of regret that I left Bucknell last fall, but with a light heart did I go to duty. As I can only be with you in spirit it is my sincere wish that you will keep the old 'pep' of '1910' ringing, and when you go out from school you will have impressions that will go down in the history of old Bucknell."

JAMES CRAVEN PIERCE  
Base Hospital Unit  
Reading, Pa.

Kappa Sigma; Varsity Track, 1, 2; Varsity Football, 1; Class Football, 1, 2.

"Could I have one and only one wish come true, it would be to be back with the boys on the hill. However, since that is impossible, I am comforting myself with the thought of doing a higher duty, namely, of serving the U. S."

THOMAS RUSSELL HEDGE  
Company I, 330th Infantry  
Scenery Hill, Pa.

Delta Sigma, Class Football, 1, 2

"How are things going with the Class? Am keeping in touch with the class by the Bucknellian and hope some day to return to the dear Old College on the Top of the Hill."

NORMAN TURNER FINGER  
U. S. Navy  
Steelton, Pa.

Class Football, 1, 2

"I wish the class of '1919' the best results in all athletics, L'Agenda work, and the pursuit of studies during the year 1917-1918, and assure you that I will be with you in spirit in everything you do, even if I can't be with you in body."
JOHN ROY GAENZLE
*Ambulance Corps, Somewhere in France*
Reading, Pa.
Sigma Chi; Track Team, Varsity, 1, 2; Class Football, 1, 2; Class Basketball, 1, 2.
"While I have no complaint to make about our life here in the trenches, I cannot deny that I would rather be back at the old school with the boys, fighting those basketball games over, or those football games. I hope that the pep of '1919' has not diminished any, but on the contrary increased."

ALBERT LESLIE GANDY
*Ambulance Corps, Somewhere in France*
Cape May Court House, N. J.
Class Football, 1, 2; Varsity Track Team, 1, 2
"I am now helping to cook for our Unit. Every one in the Unit is well and wish to be remembered to the boys back at school."

WALTER BOYLES
*316th Infantry, Company A*
Steelton, Pa.
Phi Kappa Psi; Class Football, 1, 2; Varsity Basketball, 1, 2; Captain-Elect, 3.
"I certainly have not lost interest in Dear Old Bucknell and some day hope to finish my course."

KENNETH CARSWELL HEINRICK
*Medical Corps*
Brockport, N. Y.
Sigma Chi; Class Football, 1, 2
"Success to my fellow Classmates of '1919' and although I am not with you I often think of you and your endeavors."
GURNEY CARL SEEBER

*Ambulance Corps, Somewhere in France*

Milford, N. Y.

Sigma Chi; Class Football, 1, 2

"Army Life is great, but there is something about College Life which has a little more attraction. Fellows, you won't realize what it is to be away from the college you love until you've been away once. Here's hoping that we get back soon."

VINCENT ARTHUR BALDAUF

*Infantry*

Reynolds ville, Pa.

Sigma Chi; Class Football, 1; Varsity Football, 2

"I've been in the service but a short time, but I like it very much. There are many interesting things occurring around the camp all the time and it is a college education within itself. Accept my best wishes for the class of '1919' and look for me back when the war is over."

WALTER SCOTT WHITE

*Troop M, Cavalry*

Honeybrook, Pa.

Kappa Sigma; Varsity Football, 1, 2; Freshman Declamation

"Fellow Classmates of '1919,' it is with a feeling of regret that I pen these few words. I feel, somehow, the loss of a true friend, who is none other than old Bucknell. No matter how hard I may try to control my thoughts, they still ramble back to the old college and my fellow classmates. Here's hoping to see you all some day."

THOMAS COOPER COCKILL

*Troop M, Cavalry*

Pottsville, Pa.

Kappa Sigma; Varsity Football, 1, 2

"Keep the Home Fires Burning, until we come back to Old Bucknell, for you can count on the Boys in Khaki taking their place at Old Bucknell when this war is over."
THOMAS JOSEPH MANGAN
Ambulance Corps, Somewhere in France
Charleroi, Pa.

Sigma Chi; Varsity Football, 1, 2; Chairman of Sophomore Cotillion.

"Am enjoying a little taste of Army life, fellows, and am well satisfied. I hear the news of Old Bucknell and am always glad to read of a Bucknell victory over one of our rivals, although I am not there to help. The team which whipped Swarthmore and the Red Skins deserve a great deal of credit, for these are formidable teams."

RICHARD ARMSTRONG MASON
U. S. Infantry
Naugatuck, Conn.

Kappa Sigma; Class Football, 1; Varsity Baseball, 2

"Yes, you can believe me when I say that I am with you in spirit, although not in body. Some day I hope to be with you in both spirit and body, and thus finish my course."

 STEWART ALBRIGHT EPLER
Royal Engineers, British Army
Reading, Pa.

Phi Kappa Psi; Sophomore Cotillion Committee

"My thoughts are constantly going back to Old Bucknell and the happy days, which I spent with the fellows. Army life is great and am anxious to get a taste of real fighting."

JOHN CROWThER HENDREN
Troop M, Cavalry

Kappa Sigma; Varsity Football, 1, 2 and Captain-Elect, 3; Class Baseball, 1; Class Basketball, 1, 2; Cap and Dagger.

"Believe me, boys, fighting for Uncle Sam is a great deal different than fighting on the gridiron, but I wish I were back to help fight the battles of Old Bucknell, especially that Pennsylvania game."
HAROLD NAPOLEON GILBERT
Lieutenant of 154th Depot Brigade
Williamsport, Pa.
Phi Kappa Psi; Varsity Football, 2
"Remember me to all the boys and let me hear from them once in awhile. Bucknell has a warm spot in my heart and always will have."

CHARLES MCKNIGHT BASHORE
Ambulance Corps, Somewhere in France
Mifflintown, Pa.
Delta Tau Upsilon; Electrical Engineering; Electrical Engineering Society.
"The Bucknell Unit is doing a fine work over here and I am sure that it is a credit to the school. All the fellows are enjoying good health, and although a couple had narrow escapes, none have resulted seriously. Give our kindest thoughts and wishes to the boys of '19."

CHARLES MALCOLM EMERICK
Ambulance Corps, Somewhere in France
Nittany, Pa.
Forum; Freshmen Declamation; Sophomore Oratorical; Sophomore Banquet Committee and Toast.
"Oh, to be back at old west wing with the boys and enjoying one of those good old feeds. I tell you, boys, it's hard to be away from the old institution, but we must do it for duty calls us."

RICHARD THERON CARVOLTH
Ambulance Corps, Somewhere in France
Peckville, Pa.
Class Football, 1, 2
"Just now the shells are bursting all around me and the noise is similar to the cheering at the Freshman-Sophomore game when we trimmed the Sophs. Here's hoping that the Class of 1919 keeps up that well known pep."
ALEXANDER HILL CHALFANT
Ambulance Corps, Somewhere in France

Brownsville, Pa.

D. T. U.; Class Football, 1, 2; Sophomore Cotillion and Toast;
Cap and Dagger; Medical Society.

"Turn Back the Universe and Give Me Yesterday so that
once more I might be back at Old Bucknell. Fellows, you can
believe me when I say that I wish I were back on the hill with
the boys."

DAVID JAMES MARTIN
Aviation Corps

Scranton, Pa.

Phi Gamma Delta; Oratorio Society; Operatic Society; Glee
Club; Class Basketball, 2; Class Football, 1; Minstrels.

"It's a great life if you don't weaken (this army life), espe-
cially in this flying game. A fellow sure does have some close
shaves, at least that's what they tell me; you know I have charge
of keeping account of all records."

NELSON SAMUEL ROUNSLEY
Base Hospital No. 34

Millerstown, Pa.

Forum; Medical Society

"Expect to sail very shortly for France, but although I shall
then be a couple thousand miles from Bucknell I shall never for-
get my pleasant stay there. Hope some day to return and finish
my course."

EUGENE KALLAY
Medical Department, with 88th Aero Squadron

Leechburg, Pa.

Kappa Sigma

"I am enjoying a strenuous army life, but as the saying goes,
'It's a great life if you don't weaken,' and I'm trying not to
weaken. Regards to all the boys."
