DO IT NOW.

SOMETIMES 'LATER'
BECOMES 'NEVER'

As a first-year Bucknell University student, it is never too early to start the conversation on study abroad. The time to begin thinking about study abroad is **NOW**.

Bucknell University offers the opportunity for first semester sophomore students to study abroad, which means you can study abroad in the **FALL OF 2019**. As soon as you settle in and get your on-campus classes figured out, start exploring your study abroad options.

"I understand that everyone says abroad was life-changing; but that's because it is the full-hearted truth. You learn how to be comfortable with the uncomfortable and that's a quality that is useful in all stages of one's life."
Emily Johnson, 2018

"Studying abroad made me reevaluate who I am as a person and what role I'd like to take on both on campus and in my professional life, following graduation."
Hana Sawanobori, 2018

"I can embrace diverse perspectives, value individual contribution, and even moderate discussions much better than ever before. I also simply just have more patience and adaptability than I had before going abroad."
Mikaela Shaller, 2018

"The type of learning that occurs and interaction with different people and cultures is truly unlike anything you can get in a classroom or from a book."
Nicole Chaiko, 2018
