Last month, the sudden 5000% jump in the price of a 62 year old drug raised many questions about the cost of prescription medications.

This panel will address the controversy behind prescription drug pricing and discuss pharmaceuticals obligations to patient safety, innovation, access and affordability.

Panelists:

Dr. Jove Graham  
Director, Clinical Research Project  
Development, Geisinger Health System

Dr. Erin Jablonski  
Associate Professor of  
Chemical Engineering

Dr. Amy Wolaver  
Associate Professor of  
Economics
