Because we live in a world in which all nations are close neighbors, we must all become aware of the ever-increasing need for understanding—an understanding between the peoples of all races, colors, creeds and nationalities. The Burma-Bucknell Weekend is a joint effort on the part of the Burmese who are studying in the Eastern U. S., and our Bucknell students, faculty and other interested Americans, to strengthen mutual understanding and to develop lasting friendships. The bond has grown rapidly over the years, especially after the initial Burma-Bucknell Weekend five years ago. This is the result of the effort of many individuals. Now, however, it is up to each one of us to continue to strengthen this bond.

This Burma-Bucknell Weekend is more than a tradition. It is a project in human relations, a challenge to each one of us—whether Burmese or American—to create a vital experience of good-will and understanding which we may carry into our individual lives and broaden into a world perspective.
