BURMA-BUCKNELL WEEKEND

FEBRUARY 28, MARCH 1 & 2, 1958

Lewisburg, Pa.
To All Guests at the Burma Bucknell Weekend:

In a dangerously divided world, it is a pleasure to welcome to the Bucknell campus people whose sole interest is to become acquainted with one another in understanding and friendship. On behalf of the University family, I greet you not as Burmese or Americans, but as friends.

Neither oceans, nor nationalities, nor cultures, nor points of view can separate us, one from the other, in the fellowship which this Weekend is designed to foster.

This booklet tells of the happy history behind our unique gathering.

I can simply add the word that marks its spirit. Welcome, friends!

Sincerely yours,

Merle M. Odgers

FOR MORE THAN A CENTURY

Little did Eugenio Kincaid, but recently graduated from Madison University (now Colgate), realize how far reaching his services would be. Returning to this valley in 1845, from whence he had gone to Burma as a missionary under the American Baptists, he immediately gave assistance to Mr. James Moore and others to found the University at Lewisburg Giving $200 of his own funds, he set out to help raise the needed $100,000. He became an early "curator", and saw his old teacher, Dr. Stephen W. Taylor, come as the first President. Later, Mr. Kincaid was to be the personal emmisary in an exchange of letters between the King of Burma and President James Buchanan, who while secretary of the first Board at Bucknell, had made the motion for the confering of the first degrees granted by the University at Lewisburg.

Twelve years after the founding of the University, there came to the campus the first overseas student, Maung Shaw Loo, (1) in the year 1858. Entering the preparatory school, he was graduated with the A.B. degree in 1864, and went immediately to the Charity Hospital Medical College in Cleveland, entering in its first class. Here he earned his M.D. and his Alma Mater conferred upon him an M.A. degree. At the invitation of President Andrew Johnson, he went to the White House where he was given a letter of greeting to take to the powerful King Mindon of Burma. The first Burmese student to study in the United States, Dr. Shaw Loo was also the first Burmese with a western medical education to return to Burma to practice medicine. Pled with honors at court, and offered in marriage a princess, he chose rather to return to his own people at Moulmein. Here he carried on his medical work and education through the missions and later became the first Science Inspector for the schools of Burma. We think of him almost as a legend. He died in 1929 at the age of ninety.

His Daughter Present With Us

By a most unusual circumstance, Dr. Shaw Loo’s only living daughter, Miss Lizbeth Shaw Loo, is our Guest of Honor this year. Flown here for this occasion by the Asia Foundation, she spans a century in the heart of her father’s Alma Mater which he longed to revisit. She will spend three months in the United States, visiting relatives and former co-workers, and then return home by the Pacific. She landed in New York on February 13, having visited relatives and friends in Paris and London enroute. She will be our guest in Lewisburg for a few weeks. Miss Shaw Loo has had her own distinguished career as a teacher and school supervisor. One of the founders of the Scout movement in Burma, she has also been active in the Y.W.C.A. and in social work.

Many Exchanges in People

Our first real contact with Burma was through Mrs. Harriet Mason Stevens '58, born of missionary parents in Burma in 1841. She founded the first girls’ school in Burma and devoted 45 years to educational work in the land of her birth. She died in Hampton, Va. at the age of 106 the same year as the Burma-Bucknell program started. Other Bucknellians in Burma have been E. C. Condict '08 (whose son is a guest this weekend), Dr. Edwin C. Brush '13, Miss Marion Shivers '14, Mr. and Mrs. Sam Rickard '23, Walter L. Keyser '25, David W. Graham '37, Sam and John Richard of the Classes of ’48 and ’49. Our most notable recent graduates have been Margaret Ohn Bwint ’53, Daw Nyein, M.S. ’53, Ma Khin Myint, M.A. ’53, and Miss Maggie Chin Cheng, M.A. ’57.
Enter Miss Helen Hunt

The prime inspiration for the relationship which has in these recent years come to life has been Miss Helen Hunt, a Bucknellian by adoption. Her father, Dr. Emory W. Hunt, was our beloved president for whom Hunt Hall is named. In 1934, while she was Dean of Women at Judson College in Rangoon, she encouraged Bucknell students to contribute to scholarship funds there. Continuing over the years, these funds now subsidize four students at the University of Rangoon.

It was in the fall of 1947 that Miss Hunt and Mr. Samuel H. Rickard, all then residing in Lewisburg, suggested a weekend visitation of Burmese students who were then beginning to come to the United States in larger numbers. "We should see our friends in person". So on May 1st and 2nd, 1948 the first Program was held. By happy coincidence it was started the same year as Burma achieved her independence. These American friends of Burma foresaw the great future of the new Republic and wanted to introduce more Americans to them. Neither they nor the students and faculty members who initiated this venture foresaw this tenth anniversary.

The relationship was to gain new bonds when Dr. and Mrs. Roy C. Tasker and their family went to the University College in Mandalay for the year 1950-51 on a Fulbright grant to teach biology. Dr. Tasker has been faculty chairman of the program since.

The Bridge in Rangoon

There have now been more than 350 Burmese scholars and leaders as guests during the ten years. These former guests hold today some of the most important posts in their government. They have formed a Bucknell-Rangoon Association of which Dr. Tun Thin, one of our guests this weekend, is the chairman. Dr. Thin is professor of Economics at Rangoon University, and currently serving as Alternate Director of the International Monetary Fund in Washington. This committee has enlarged the scholarship fund named for us in Rangoon, and is now holding its annual "party".

An Illustration

This historic and personable relationship between Bucknell and Burma is not unique in the American college scene, although this weekend expression of it is. Universities from earliest times have been international in character. Our history of the past one hundred years will inspire us to broader and deeper understanding. We come from very different cultural and religious traditions, yet hold in common the hopes of men for peace and a better life. Bucknell is planning to offer, starting in September, a program of non-western studies, introduced auspiciously two years ago by Dr. T. Z. Koo.

This historical relationship may now take some new turn. We welcome on the campus this weekend representatives of a number of other colleges who are exploring the possibility of sponsoring on their campuses similar associations for students from other nations.

(1) Dr. M. K. Myint is preparing a biography of Dr. Shaw Loo. A resume will be published this spring in the Burma Medical Journal.
The President,
Bucknell University,
Lewisburg,
Penn., (U.S.A)

His Excellency the Honble Uun Ko Hau,
Envoy Extraordinary and Minister Plenipotentiary
of the Union of Burma to the Republic
of France and the Netherlands,
Member of General Aung San's
Provisional Cabinet:

Paris the 4th February, 1958.

Dear Mr. President,

On the occasion of the 10th anniversary
of the Burma Bucknell weekend I send you my heartfelt
congratulations.

My country has just celebrated the
10th anniversary of her Independence and it is interesting
to note that the Burma and Bucknell Decennial should also
fall in the same year. I had the honour of speaking on
the occasion of the 5th anniversary of the Burma Bucknell
weekend on the subject of the Drafting of the Constitution
of the Union of Burma of which I was one of the authors.
I then came from New York where I was Burma's Delegate
to the United Nations. I still recollect the happy days
we all spent at Bucknell. Bucknell can justly be proud
that even during the days of our Burmese Kings it had enabled
a Burmese youth to get his degrees. I had the honour of
having that man's youngest surviving daughter Miss Shawloo
as my guest in the Burma House in Paris on her way to attend
the Centenary celebrations at your famous University.

When human knowledge has gone beyond
the dream of our forefathers and become a realization
people begin again to appreciate the virtue of real
friendliness and it is most interesting that Bucknell has
shown such friendliness a hundred years ago, although
there was no so called formal diplomatic relations yet
between Burma and the United States.

It is even more interesting to note that
a President of the United States should have thought it
fit to greet His Majesty the King of Upper Burma through
a pupil of Bucknell University a hundred years ago. To
ponder these things really brings sentiments which should
spread the more between many more nations as the years
go by.

My best wishes for the continued friendship
between Bucknell and Burma for years to come.

Yours very sincerely,

Uun Ko Hau
"THE BURMA BUCKNELL BOWL"

In honor of this anniversary, the President of the Union of Burma is presenting through his Ambassador in Washington, on Saturday night a beautiful embossed silver bowl, bearing this inscription, "Presented by President and Mrs. U Win Maung to Bucknell University". The President's secretary, U Pe Sein, has written, "His Excellency the President desires me to convey his best wishes for the success of the Week End". This Bowl, mounted on a teakwood base of carved lions, will be housed on the main foyer of the Ellen Bertrand Library.

The shield bears the inscription, "The Burma Bucknell Bowl, March 1, 1958, symbolizing one hundred years of friendly relationship between the people of Burma and Bucknell University is awarded annually in recognition of a significant contribution to the ideal of brotherhood and good citizenship." It is planned that the Bowl be awarded at student recognition day each May to that individual or group who shall have made a significant contribution to the ideal of brotherhood through intercultural or international understanding, or campus citizenship.

Your attention is called to the excellent series of articles on Burma in the February issue of "THE ATLANTIC." These cover the whole range from history, economics, and politics to art, poetry, and dating customs. It is particularly helpful in understanding Buddhism. The student Book Store has a supply.
