THE BUCKNELL UNIVERSITY CHRISTIAN ASSOCIATION

Lewisburg, Pennsylvania

To our Guests:

We welcome you to our campus! Through our long tradition, we meet not as Burmese and Americans, but as friends. May this relationship engender within us a responsibility to seek for World Community, so that politics might more closely represent the feelings of the people, and that the people in understanding one another in this community will strive for peace.

In this spirit, we bid you welcome.

The Prologue . . .

The dramatic events of the tenth anniversary Bucknell-Burma program a year ago crystalized the decision on the part of both American and Burmese friends to continue some meaningful event each year. How this desire can be programmed into the future is not clear. Neither was it clear to Eugenio Kincaid in 1846 that, in addition to helping to found Bucknell University, he was planting a seed which would flourish in bringing his beloved Burma and Bucknell closer together. Nor did Maung Shawlo foresee in 1858 when he entered The University at Lewisburg as a freshman, that he would be honored a century later by having his daughter present to the University an oil portrait of her famous father.

There have been many threads connecting the life of the people of Burma and Bucknell over the years. Some Bucknellians lie buried there; some Burmese student graves are not far from Lewisburg. Some Bucknellians continue in educational and missionary work in Burma today. Margaret Ohn Bwint '53 is now Program chairman for the Burma-American Institute in Rangoon. Dr. U Hla Ba, currently acting chairman of the Burma-Bucknell committee in Rangoon, is serving as Director for the United States Educational Foundation in Burma, and in September will come to the United States as a visiting lecturer on World Religions. Three of our Burmese alumni are teachers at the University of Rangoon.

Miss Helen Hunt, daughter of our former President for whom Hunt Hall is named, and Mr. and Mrs. Samuel H. Rickard '23 were responsible for the idea which gave birth to the Burma-Bucknell week-end in the year that Burma became an independent modern State, in 1948.

This program has had wide acceptance both in the United States and in Burma, although it still remains unique. Here students who are struggling to understand better the revolutions of our time share a lively week-end with their Burmese friends. Our Burmese guests will very probably occupy positions with major responsibility in the world of Southeast Asia, and in the capitals of the world long before we ourselves reach our prime. Here we hope too that our Burmese friends will learn anew that American youth rejoice in their freedom and share their hope for a happy Burma, and a world of reason and spiritual renewal. Buddhists and Christians hold many major visions in common, and work toward the same goals of brotherhood.

We know that Burma is and will continue to be in the maelstrom of world events. A young and vital nation in Asia, her favors are sought in every capital. Her victories are not all won - and neither are ours. Freedom for her, as for us, was bought with a price and vigilance is still the watchword.

We would like to invite our American friends to talk long and earnestly with their Burmese friends; to read some of the books and articles in the library which will give dimension to their knowledge. Your attention is also called to the special lectures in the week-end which will bring information from the field of art, national planning, and politics. We invite our guests to seek to find the dynamics of our own democracy and family life. May we share very meaningfully the days together.

The Burma Bucknell Bowl

In honor of the tenth anniversary of the Burma-Bucknell Program, the President of the Union of Burma last year presented to the University a silver bowl, bearing this inscription, “Presented by President and Mrs. U Win Maung to Bucknell University”. This Bowl, mounted on a teakwood base of carved lions, is housed on the main foyer of the Ellen Bertrand Library.

The shield bears the inscription, “The Burma-Bucknell Bowl, March 1, 1958, symbolizing one hundred years of friendly relationship between the people of Burma and Bucknell University is awarded annually in recognition of a significant contribution to the ideal of brotherhood and good citizenship.” Last May it was awarded to the Phi Lambda Theta Fraternity in recognition of their interracial and intercultural policies.
