

GRADUATE OUTCOMES

where our graduates go

The following report presents the results of an extensive survey and information gathering process conducted by the Career Development Center to obtain postgraduate information for Bucknell University’s Class of 2018. In accordance with guidelines of the National Association of Colleges and Employers (NACE), the data collected provides a snapshot of students who graduated in the Class of 2018, which is defined as those that graduated in Summer 2017, Fall 2018 and Spring 2018.

The statistics provided are based upon information that consists mostly of survey responses from graduates, but also includes knowledge gained through faculty/staff reporting and other sources such as LinkedIn. This targeted 9 month outreach is accomplished initially in person at the annual cap & gown distribution and then via mail, email and/or telephone to secure information on their status.

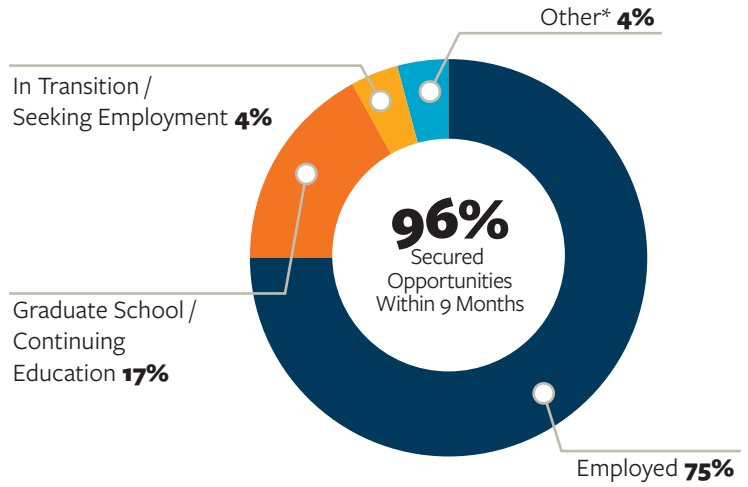

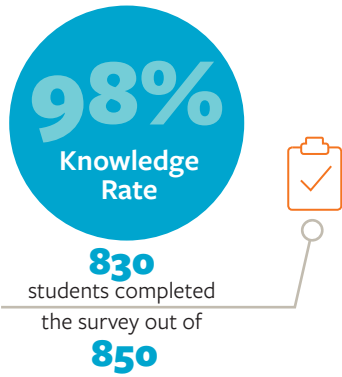

On the following pages you will see that Bucknellians are prepared to succeed and how the value of a Bucknell education has enabled meaningful and purposeful first destinations for our graduates.
