Center for
Career Advancement

Class of 2021

GRADUATE OUTCOMES

where our graduates go

The following report presents the results of an extensive survey and information gathering process conducted by the Center for Career Advancement to obtain postgraduate information for Bucknell University's Class of 2021. In accordance with guidelines of the National Association of Colleges and Employers (NACE), the data collected provides a snapshot of students who graduated in the Class of 2021, which is defined as those that graduated in Summer 2020, Fall 2020 and Spring 2021.

The statistics provided are based upon information that consists primarily of survey responses from graduates and also includes knowledge gained through faculty/staff reporting and other sources such as LinkedIn. Our targeted nine-month outreach is accomplished initially in person at the annual cap and gown distribution and then followed via multiple touchpoints through individual email, telephone and text outreach to secure or confirm information.

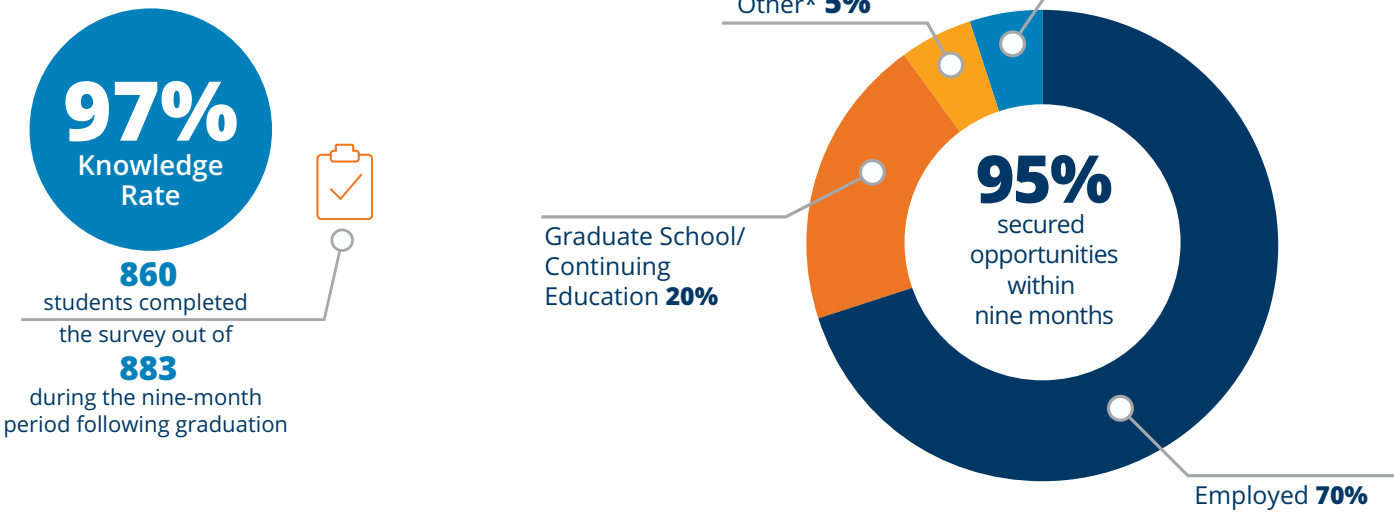

On the following pages you will see class highlights and college and departmental summaries that showcase how the value of a Bucknell education has enabled our graduates to obtain meaningful and purposeful experiences in their initial career pursuits.
