

Class of 2020

GRADUATE OUTCOMES

where our graduates go

GRADUATE OUTCOMES

where our graduates go

The following report presents the results of an extensive survey and information gathering process conducted by the Center for Career Advancement to obtain postgraduate information for Bucknell University’s Class of 2020. In accordance with guidelines of the National Association of Colleges and Employers (NACE), the data collected provides a snapshot of students who graduated in the Class of 2020, which is defined as those that graduated in Summer 2019, Fall 2019 and Spring 2020.

The statistics provided are based upon information that consists mostly of survey responses from graduates, but also includes knowledge gained through faculty/staff reporting and other sources such as LinkedIn. It should be noted that our traditional nine-month outreach was significantly impacted early on by the covid-19 pandemic and Bucknell’s decision to postpone commencement activities. Given this, initial outreach to the class was delayed until late June and strategies focused on email, mail and/or telephone messaging to secure information on their status.

On the following pages you will see that Bucknellians are prepared to succeed and how the value of a Bucknell education has enabled meaningful and purposeful first destinations for our graduates.
