Guided Reading Scaffold

→ This works best when adapted to your particular course, text, and reading goals.

What is the topic?
What does the introduction say?

Skip to the end(ish)
What are the conclusions?

Go back to the beginning; follow along the points from the conclusion
What is the argument?

What is the evidence?

What are the problems that come up?

What are the proposals/solutions that author provides?

What is confusing or what do you want/need more information about?
